

Broadleaf Evergreens 2019								
Blue - New 2019								
Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description		red - Three or less in stock blue - New 2019 Price/(#Stock)
Bog Rosemary	Andromeda polifolia				Yes	NS Native Species - Shelter from winter wind		
Blue Ice Bog Rosemary	Andromeda polifolia 'Blue Ice'	3	60cm	1m		Low, mounded, spreading form. Small white bell-shaped flowers with pink overtones in spring. Fine-textured, icy-blue, needlelike foliage all year. Prefers full sun to partial shade, rich, moist to wet acidic soil, will tolerate some standing water. Slow-growing.		16.95 (7)
Arizona Madrone	Arbutus arizonica					Deer Resistant - Protect from NW winter winds		
Arizona Madrone	Arbutus arizonica	6b - 7	5 - 6m			Native to mountains of Arizona. Small, delicate tree. Glossy, dark-green leaves with paler undersides. Early spring, white to pale-pink, urn-shaped flowers produce orange fruit, persisting into winter. Exfoliating bark, plated with grey and cream colours, with exposed reddish patches. Full sun, well-drained soil. Drought tolerant but prefers regular watering. Needs a very protected site. Or grow in a container, overwinter indoors.		15.95 (11)
Bearberry / Kinnikinick	Arctostaphylos uva-ursi				Yes	NS Native Species - Deer Resistant - Evergreen groundcover - Fruits attract birds		
Bearberry / Kinnikinick	Arctostaphylos uva-ursi	4	15cm	40cm	Yes	NS Native species. Ground cover with glossy-green foliage, spring white flowers and red fruit. Full sun to partial shade, sandy, well-drained soil.		12.95 (17)
Little Leaf Massachusetts Kinnikinick	Arctostaphylos uva-ursi 'Little Leaf Massachusetts'	4	15 - 30cm	1 - 1.2m		Flat-growing, tiny, glossy-green evergreen leaves on reddish-brown stems. Spring, urn-shaped flowers produce a profusion of red berries. Foliage turns burgundy in cooler weather. Superb disease resistance. Good cascading down banks, over walls. Full sun to partial shade, sandy, well-drained soil.		12.95 (14)
Massachusetts Kinnikinick	Arctostaphylos uva-ursi 'Massachusetts'	4	15 - 30cm	40cm		Small, lustrous evergreen mat of foliage, urn-shaped, flowers in spring, produces attractive red fruit by late summer into winter. Foliage red-gold in fall. Best in acidic, well-drained sandy infertile soil. Excellent disease resistance variety. Full sun to partial shade, sandy, well-drained soil.		12.95 (52)
Japanese Laurel	Aucuba					Shelter from winter sun and wind		
Mr. Goldstrike Japanese Laurel	Aucuba japonica 'Mr. Goldstrike'	7	1.2m	1.2m		Male cultivar, striking foliage, glossy, heavily spotted gold evergreen leaves. Partial sun to shade. Moist, well-drained soil, or plant in a container and overwinter indoors.		4.95 (7) 24.95 (17)

Blue - New 2019								blue - New 2019
Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description		Price/(#Stock)
Cotoneaster	Cotoneaster					Deer Resistant - Semi-evergreen - Attracts pollinators, birds.		
Little Gem Compact Cotoneaster	Cotoneaster adpressus 'Little Gem'	4	30cm	60cm		Dense, mounded, cascading habit. White flowers in spring produce brilliant red berries in fall. Full sun, tolerates light shade. Drought resistant, salt tolerant. Good as a groundcover, foundation plantings, or cascading over a wall. Brilliant red fall colour.		19.95 (10)
Cranberry Cotoneaster	Cotoneaster apiculatus	4	1m	2m		Dense, broad, upright, mounding habit, with stiffly arching branches, semi-evergreen. Small pink-white spring blooms produce cranberry size red berries in fall which persist in winter. Tolerates drought conditions. Full sun, well-drained soil. Purple, red & bronze fall colour.		28.95 (5) 29.95 (23)
Bearberry Cotoneaster	Cotoneaster dammeri	4	30cm	1.8m		Dense, semi-evergreen, prostrate habit. White flowers in spring produce bright red berries in fall, persist into winter. Red-purple fall colour. Good as a groundcover (two plants per m ²), cascading over banks, rock walls. Full sun to partial shade, well-drained soil. Drought tolerant once established.		12.95 1gal (25 Fall) 14.95 (2) 15.95 (50)
Coral Beauty Bearberry Cotoneaster	Cotoneaster dammeri 'Coral Beauty'	4	30cm	1.2 - 2m		Mounding, cascading habit. Shiny, green leaves. White flowers produce orange-red berries, persisting into winter. Full sun to partial shade. Red fall colour. Good to stabilize banks, cascading over walls, groundcover.		10.95 (7) 11.95 (66) 19.95 (33) 21.95 (18)
Hesse Cotoneaster	Cotoneaster hessei	4	30-60cm	1.5 - 2m		Hybrid cross (C. horizontalis x C. adpressus var. praecox). Low growing, arching, spreading habit. Deciduous, with small, rounded leaves, arching stems. Small, pinkish-red flowers in spring produce red berries that persist into winter. Excellent groundcover, or cascading over walls. Reddish-purple fall colour. Drought tolerant once established.		29.95 (18)
Little Dipper® Cotoneaster	Cotoneaster procumbens 'Gerald' (Little Dipper)	5	15-30cm	1.2 - 2m		Spreading, prostrate habit. Deciduous, fine-textured branches are covered with tiny, white blooms in spring, produce showy, red berries through late summer, through fall, into winter. Good as a groundcover, or cascading over walls or banks. Full sun to partial shade, average, well-drained soil. Blooms on old wood, prune to shape after blooming.		34.95 (25)
Rockspray Cotoneaster	Cotoneaster horizontalis 'Rock Spray'	5	30-60cm	1.5 - 2.4m		Dense, semi-prostrate habit. Branches are arranged in attractive herringbone pattern. Pink flowers, bright red berries in fall. Lustrous green leaves turn showy red-purple in fall. Full sun to partial shade, well-drained soil. Effective on banks and slopes, groundcover (two plants per m ²).		10.95 (30) 19.95 (70)

Broadleaf Evergreens								
2019								
Blue - New 2019								
Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description		red - Three or less in stock blue - New 2019 Price/(#Stock)
Spreading Willowleaf Cotoneaster	Cotoneaster salicifolius 'Repens'	6	30cm	2.4m		Evergreen. Fast and easy to grow pest resistant evergreen groundcover. White flowers give way to red fruit in fall. Drought tolerant when established. Full sun to light shade, well-drained soil. More fruit is produced if situated in full sun.		18.95 (6) 22.95 (20)
Streibs Findling Bearberry Cotoneaster	Cotoneaster dammeri 'Streibs Findling'	6	15cm	2.4m		Excellent flat growing semi-evergreen groundcover. Tiny, blue-green leaves (not as glossy as 'Coral Beauty'), white flowers followed by showy red berries. Good for banks, berms, cascading over walls.		21.95 (5)
Thyme-leaf Cotoneaster	Cotoneaster microphyllus 'Thymifolius'	6	60cm	1m		Very tiny, evergreen, glossy-green leaves, small arching branches, showy red fruit. Good as a groundcover, rock gardens, fairy garden, bonsai plantings.		39.95 (4)
Tom Thumb Cranberry Cotoneaster	Cotoneaster apiculatus 'Tom Thumb'	5	30 - 60cm	1.5m		Spreading branches form an interesting herringbone pattern. Glossy green leaves turn red in fall before leaf drop. White flowers in spring from pink buds, produce large, showy, red berries in fall, persisting into winter. Excellent, cascading groundcover. Best in full sun.		29.95 (14)
Daphne	Daphne					Deer Resistant - Shelter from winter wind. Very fragrant.		
Burkwood Daphne	Daphne x burkwoodii	5	1 - 1.2m	1 - 1.2m		Hybrid cross (D. caucasica x D. cneorum). Mounding, semi-evergreen shrub with pink buds in spring opening to small, white to light-pink, very fragrant, tubular flowers. May re-flower sporadically again in fall. One of the easiest Daphne's to grow. Slow growing.		49.95 (11)
Briggs Moonlight Daphne	Daphne burkwoodii 'Briggs Moonlight'	5	1m	1.2m		Creamy-yellow leaves and narrow margins of green. Pink buds open to to white very fragrant flowers. Slow growing.		29.95 (9)
Lunar Eclipse Daphne	Daphne burkwoodii 'Lunar Eclipse'	5	1m	1m		Showy, semi-evergreen foliage. Green leaves with a narrow, yellow center. Very fragrant, soft-pink to white, tubular flowers in spring. Slow growing.		49.95 (9)
Ruby Glow Rose Daphne	Daphne cneorum 'Ruby Glow'	5	25 - 30cm	50 - 60cm		Slow, mounding habit, with very small, fine-textured green leaves. Intensely fragrant pink flowers bloom in early spring then sporadically during summer, with a smaller flush in fall, producing yellow-brown seeds that are visible in summer. Plant in area protected from NW winter winds. Partial shade, very well-drained soil. Mulch for added winter protection. Note: this plant does not like to be moved after it's established.		39.95 (2)

Blue - New 2019									
Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description			red - Three or less in stock blue - New 2019 Price/(#Stock)
Lawrence Crocker Dwarf Daphne	Daphne x medfordensis 'Lawrence Crocker'	6	20 - 30cm	20 - 30cm		Low mounding evergreen shrub, glossy, dark-green leaves. Large clusters of soft lavender-pink flowers with the most intoxicating sweet and pleasant fragrance in May to June. Protected site away from NW wind. Partial shade, evenly moist, neutral to acidic, well-drained soil. Mulch root zone for winter protection. Slow-growing.			29.95 (6)
Eternal Fragrance Daphne	Daphne x transatlantica 'Blafra' (Eternal Fragrance)	6	1m	1m		Low, mounding form. Semi-evergreen foliage. Exceedingly fragrant, white blushed pink flowers burst forth in spring, then bloom sporadically through summer and fall. Full sun to light shade. Well-drained soil. Mulch root zone for winter protection. Site in location away from NW winter wind.			39.95 (5)
Euonymus	Euonymus								
Blondy® Euonymus	Euonymus fortunei 'Interbolwi' (Blondy)	5	45 - 60cm	60cm		Low, compact growth habit. Tidy, mounded shape. Bold, dark-green leaves with large, bright-yellow centers, on bright-yellow stems. Makes a great, low-maintenance evergreen accent or low hedge.	29.95 (6)		35.95 (25)
Emerald Gaiety Euonymus	Euonymus fortunei 'Emerald Gaiety'	5	1.2m	1m		Variegated green and silver, can be grown as a climber			29.95 (13)
Emerald 'N Gold Euonymus	Euonymus fortunei 'Emerald 'N Gold'	5	.6 - 1.2m	60cm		Variegated dark glossy green and vivid distinctive yellow margins,	29.95 (8)		34.95 (9)
Moonshadow Euonymus	Euonymus fortunei 'Moonshadow'	5	1m	2m		Low growing, mounding shape, deep green leaves have a prominent yellow blotch in center. Full sun to partial shade.			39.95 (11)
Paloma Blanca Euonymus	Euonymus japonicus 'Lankveld03' (Paloma Blanca)	6	.75m	.75m		Compact shrub with upright form. Dark green foliage with showy brilliant-white new growth in spring. Little or no pruning. Full sun to partial shade, moist, well-drained soil. Site in location protected from NW winter winds.			34.95 (10)
Sarcoxie Euonymus	Euonymus fortunei 'Sarcoxie'	5	2m	1m		Vigorous, upright growth habit. Oval, glossy green leaves. Spring clusters of insignificant greenish flowers produce pinkish-white fruits which crack open to expose orange seeds in fall, attractive to birds. Will climb with support. Partial to full shade, well-drained soil. Drought tolerant.	26.95 (1)		31.95 (10)
Surespot Euonymus	Euonymus fortunei 'Surespot'	5	1m	1m		A sport of Sunspot, glossy-green leaves with bright-gold centers. Berries are produced in June, split open in fall to reveal showy, pink seeds.	29.95 (2)		34.95 (14)
(BP - Corner by pool) Euonymus	Euonymus fortunei	5				Our own propagated variety, with variegated yellow and green leaves.			24.95 (36)

Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description		red - Three or less in stock blue - New 2019 Price/(#Stock)
Salal / Shallon / Teaberry	Gaultheria				Yes	Deer Resistant - Attracts birds		
Eastern Teaberry	Gaultheria procumbens	4	10-15cm	25-30cm	Yes	NS Native species. Small, soft-pink bell flowers in June and July, followed by large, edible, persistent, scarlet-red fruit. Glossy, evergreen foliage turns bronze in winter. Slow-growing groundcover, plant 30cm apart. Attracts bees and birds. Prefers partial shade to shade, moist, acidic soil	11.95 (30)	15.95 (41)
Salal	Gaultheria shallon	6	0.6m	1.2 - 3m		Native to PNW, understory, spreading, evergreen shrub. Erect branches of oval-shaped, leathery green leaves. Pendant, urn-shaped, white to pink, spring flowers, produce reddish stems of edible, dark-purple, fleshy, sweet, mealy-tasting fruit, late summer to fall. Slow to establish. Partial shade to shade, moist, acidic soil. Good companion for Rhododendrons and ferns. Cut branches are attractive in floral arrangements. Plant in site away from exposure to winter NW wind.		12.95 (36 fall)
Holly / Inkberry	Ilex					Deer Resistant - Fruit attractive to birds - Shelter from Winter Wind		
Ferox Argentea (Male) Hedgehog English Holly	Ilex aquifolium 'Ferox Argentea' (Hedgehog)	6 to 7	2.75m	1.75m		Upright, mounded shape. Male, very ornamental, but prickly, variegated foliage, green with white edge, does not produce fruit. Both leaf edges and surfaces are spiny. Requires site protected from NW winter winds. Full sun to partial shade, well-drained acidic soil.		39.95 (2)
Dragon Lady Hybrid Holly	Ilex x aquipernyi 'Meschick' (Dragon Lady)	6b	3 - 6m	1.2 - 2m		Hybrid (<i>I. aquifolium</i> x <i>I. pernyi</i>) Upright, symmetrical, very narrow, pyramidal form. Female cultivar. Male blue holly (<i>Ilex</i> x <i>meserveae</i>) serves as a pollinator. Evergreen, spiny, dark-green leaves, with attractive, scarlet-red fruits, maturing in fall, remaining throughout winter until picked clean by songbirds. Full sun to partial shade. Moist, well-drained soil. Site protected from exposure to winter NW winds.		39.95 (12)
Beehive (Male) Japanese Holly	Ilex crenata 'Beehive'	6	.6 - 1m	1 - 1.2m		Dwarf, rounded habit. Small, shiny, dark-green, evergreen leaves. Male cultivar, does not produce fruit. Easily pruned or sheared to maintain shape. Full sun to light shade, moist, well-drained, acidic soil. Site protected from winter NW winds.	24.95 (2)	39.95 (11)
Convex (Female) Japanese Holly	Ilex crenata 'Convexa'	5	2 - 2.5m	1.5 - 2m		Mounded habit, small, dark-green evergreen leaves in a distinctive, convex shape. Self-fertile, tiny white flowers produce small black berries. Can be sheared for shape. Faster growing than boxwood. Full sun to partial shade, moist, well-drained acidic soil. Tolerates drought once established. Site protected from winter NW winds.		29.95 (20)
