| Violet Elizabeth Clematis  | 4           | 1.5 - 2.5m        | May-June,<br>Aug-Sept       | Pruning group B1 -<br>flowers on previous years<br>growth                     | Very large (17cm-7"), double, mauve-pink<br>blooms in late spring, followed by a second<br>flush of single blooms in fall. Full sun to<br>partial shade.   | 16.95 (5)   |
| Violet Stardust Hybrid<br>Clematis   | 4           | 0.6m              | June, Aug                   | Pruning group C - Flowers<br>on new growth only                               | Non-twining, bush-type, with broad, dark-<br>green leaves. Covered in tiny, 1.5", blue-<br>violet, star-shaped flowers, with fluffy,<br>contrasting, creamy-white anthers in centers.<br>Blooms late spring and again sporadically late<br>summer. Allow this plant to scramble through<br>neighbouring shrubs or sturdy perennials for<br>support. Full sun to light shade. Rich, moist,<br>neutral to slightly alkaline soil. Mulch. | 22.95 (25)  |
| Westerplatte Clematis  | 5           | 2 - 3m            | May-June,<br>Aug-Sept       | Pruning group B1 -<br>Flowers on previous<br>year's growth and new<br>growth. | Rich, velvety-red blooms with dark central<br>stamens. Full sun to partial shade. Rich,<br>moist, well-drained soil.   | 18.95 (16)  |
| <b>Pruning Info:</b>   |             |                   |                             |   |  |   |
| <b>Pruning Group A:</b> These varieties flower on growth produced the previous year. Lightly prune out weak or dead stems, right after blooming is finished (May or  |             |                   |                             |   |  |   |
| <b>Pruning Group B1:</b> These varieties flower on wood that was hardened off from previous year's growth.<br>This group usually consists of a heavy flush of flowers in May - June on the previous season's growth, followed by a second smaller flush of blooms in September |             |                   |                             |   |  |   |
| <b>Note: If rejuvenation is needed,</b> a severe pruning can be carried out. It will reduce the number of flowers, but will not hurt the plant. Follow instructions as in Group C.   |             |                   |                             |   |  |   |
| <b>Pruning Group B2:</b> These varieties bloom simultaneously on last year's growth and the current season's growth.<br>This group usually blooms from June to September continuously. Pruning can be done as in Group B1, or Group C every 2nd year.                          |             |                   |                             |   |  |   |
| <b>Pruning Group C:</b> These varieties bloom on the current season's growth only.<br>Blooms commence in summer and continue through fall. Prune back in late Feb or March to two strong sets of buds on each stem close to ground level.                                      |             |                   |                             |   |  |   |
|  |             |                   |                             |   |  |   |
|  |             |                   |                             |   |  |   |
|  |             |                   |                             |   |  |   |
|  |             |                   |                             |   |  |   |
