Blue - New 2020								Blue - New 2020-Supplier
Common Name	Latin Name	Zone	Height (inches)	Spread (inches)	NS Native	Description	Exposure	Price/(# in Stock)
Northern Maidenhair Fern	Adiantum					Deer Resistant		
Northern Maidenhair Fern	Adiantum pedatum	4	12-24"	24-30"	Yes	NS Native species. Thin black stems with airy, lacy green leaves. Spreads slowly. Moist, humusy, acidic soil.	PSH-SH	13.95 (55)
Himalayan Maidenhair Fern	Adiantum venustum	6	6-12"	12-23"		Native to forested mtns of Himalayas, China. Delicate, lacy, evergreen fern, with black stems. New small fronds that unfurl in spring are blushed bronze, maturing to fresh green. Spreads by creeping rhizomes, this gorgeous fern is slow to mature. Prefers morning sun to light to dappled shade, in consistently moist, rich, well-drained soil. Lightly trim to tidy up plants in spring.	PSH-SH	16.95 (15)
Hart's Tongue Fern	Asplenium / syn. Phyllitis					Deer Resistant		
Hart's Tongue Fern	Asplenium scolopendrium	5	12-24"	12-18"		Evergreen, upright, undivided strap-like leaves, leathery texture. Prefers shaded, cool sites, moist, well-drained, humusy, slightly alkaline soil. Will not tolerate drought.	SH	13.95 (23) 16.95 (11)
Angustifolia (Ruffled) Hart's Tongue Fern	Asplenium scolopendrium 'Angustifolia'	5	12-18"	12-18"		Evergreen, strap-like leaves with deeply serrated, frilly margins. Prefers shaded, cool sites, moist, well-drained, slightly alkaline soil.	SH	16.95 (3)
Crested Hart's Tongue Fern	Asplenium scolopendrium 'Cristata'	5	18-24"	18-24"		Shiny, evergreen, strap-like leaves, frilled and ruffled, with forked tips. Prefers shaded, cool sites, moist, well-drained, humusy, slightly alkaline soil.	SH	16.95 (2)
Upside Down Fern	Arachnoides							

FERNS 2020								Red - Three or less in stock
Blue - New 2020								Blue - New 2020-Supplier
Common Name	Latin Name	Zone	Height (inches)	Spread (inches)	NS Native	Description	Exposure	Price/(# in Stock)
Upside Down Fern	Arachnoides standishii	5	18-24"			Native to Japan, Korea. Arching form. Semi-evergreen, soft, lacy fronds have an "upside down" appearance. Prefers rich, moist, partially shaded soil. Spreads very slowly by creeping rhizomes. Ideal in woodlands, this lovely textured fern looks beautiful among shade loving perennials and shrubs.	PSH-SH	13.95 (18)
Lady Fern / Japanese Painted Ferns	Athyrium					Deer Resistant		
Lady Fern	Athyrium filix-femina	4	12-36"	12-30"	Yes	NS Native Species. Finely textured green fronds, arching habit. Somewhat tolerant of sun, only if soil is moist.	PSH-SH	8.95 (8) 13.95 (11)
Northern Red-stemmed Lady Fern	Athyrium angustum f. rubellum 'Lady in Red'	3	30"	30"	Yes	NS Native species. Light-green fronds with burgundy-red stems, brighter red colour when planted in partial shade. Moist, well-drained, humusy soil.	PSH-SH	12.95 (17)
2004 Perennial Plant of the Year Japanese Painted Fern	Athyrium niponicum var. pictum	5	12-18"	12-18"		Soft, grey-green with overlay of silvery hues, with contrasting maroon midribs and stems. Moist, well-drained, humusy soil.	PSH-SH	13.95 (5) 16.95 (15)
Apple Court Japanese Painted Fern	Athyrium niponicum var. pictum 'Apple Court'	5	24"	12-18"		Like the Japanese Painted Fern, but frond tips are crested (split).	PSH-SH	13.95 (7)
Ghost Japanese Painted Fern	Athyrium 'Ghost'	5	24-36"	18-24"		A hybrid of (A. niponicum var. pictum x A. filix-femina), noted for it's upright, silvery foliage, dark purple stems.	PSH-SH	13.95 (5) 16.95 (25) (24 L)
Godzilla Japanese Painted Fern	Athyrium niponicum 'Godzilla'	5	18-36"	36"		Silver, purple and green fronds tower above other painted ferns. Massive arching clump, with dark purple stems.	PSH-SH	13.95 (12) 16.95 (19) (32) (24 L) 18.95 (1)
Pewter Lace Japanese Painted Fern	Athyrium niponicum 'Pewter Lace'	5	18"	18"		Beautiful fern, pewter metallic foliage with deeply contrasting, burgundy-purple midrib. Tolerant of heat & humidity. Moist, well-drained humusy soil.	PSH-SH	13.95 (34)
Regal Red Japanese Painted Fern	Athyrium niponicum var. pictum 'Regal Red'	5	12-18"	18-23"		Arching, triangular-shaped silver leaves with contrasting red stems in each leaflet. Moist, well-drained humusy soil.	PSH-SH	13.95 (44)

FERNS 2020								Red - Three or less in stock
Blue - New 2020								Blue - New 2020-Supplier
Common Name	Latin Name	Zone	Height (inches)	Spread (inches)	NS Native	Description	Exposure	Price/(# in Stock)
Victorian Lady Fern	Athyrium filix-femina 'Victoriae'	5	18"	18-24"		Finely divided lady fern with unique, lacy, tiny leaflets that criss-cross up the frond and are crested at the tips. Clump-forming, this vigorous, showy fern prefers rich, moist, well-drained soil.	PSH-SH	16.95 (15)
Vidals Japanese Lady Fern	Athyrium vidalii	6	18-30"	18-30"		Graceful fern with a open habit. New growth has a red flush. Native to eastern Asia. Moist, well-drained, acidic, humusy soil. Shelter from strong winds.	PSH-SH	13.95 (15)
Deer Fern	Blechnum					Deer Resistant		
Deer Fern	Blechnum spicant	6	18"	12-24"		Two different types of fronds: evergreen sterile, outward spreading, dark-green, leathery. Non-evergreen, fertile, erect, vertical, which die back at end of summer. Needs humus-rich, moist, acidic soil. Native to Pacific Northwest.	PSH-SH	13.95 (2)
Male Fern / Wood Fern	Dryopteris					Deer Resistant		
Dixie Wood Fern	Dryopteris x australis	5	36-48"	24-36"		Native to Eastern NA. Young fronds emerge yellow, changing to green. Vase-shaped, clump-forming. Moist, well-drained, humusy, acidic soil.	PSH-SH	13.95 (2) 19.95 (10)
Clinton's Woodfern	Dryopteris clintoniana	4	24-48"	24-48"		Native to Eastern NA. Semi-evergreen, clump forming and spreading with large broad leathery fronds. Requires moist, wet, humusy soil.	PSH-SH	13.95 (8)
Crispa Male Fern	Dryopteris filix-mas 'Crispa'	5	12-14"	14-16"		Native to Eastern NA & Europe. Crimped and ruffled, triangular green fronds. Clump-forming, well-behaved fern.	PSH-SH	13.95 (4)
Crested Male Fern	Dryopteris filix-mas 'Crispa Cristata'	5	24"	24"		Curled, forked and twisted, densely feathered fronds, interesting texture. Moist, well-drained soil.	PSH-SH	12.95 (6)
Autumn Fern	Dryopteris erythrosora	5	24"	24"		Arching, vase-shaped clump. New fronds open a striking coppery-pink colour, maturing to glossy, deep-green. Moist, well-drained soil. Native to Eastern Asia.	PSH-SH	16.95 (24)

FERNS 2020								Red - Three or less in stock
Blue - New 2020								Blue - New 2020-Supplier
Common Name	Latin Name	Zone	Height (inches)	Spread (inches)	NS Native	Description	Exposure	Price/(# in Stock)
Lacy Crested Buckler Fern /Crested Wood Fern	Dryopteris dilatata 'Lepidota Cristata'	5	12-18"	12-24"		Medium-sized clump of crested, very finely-divided, dark green, lacy fronds. Trim old fronds in spring. Prefers rich, consistently moist soil, partial to full shade.	PSH-SH	13.95 (10)
Slender Crested Male Fern	Dryopteris filix-mas 'Linearis Polydactyla'	5	36-48"	36-48"		Interesting and unusual form. Very airy in appearance, fronds are multi-forked, almost finger-like. Rich, moist, well-drained soil.	PSH-SH	13.95 (34)
Parsley Male Fern	Dryopteris filix-mas 'Parsley'	5	18-24"	18-24"		Clump of crested, crinkled, dark green fronds, resemble curled parsley. Vigorous and robust grower.	PSH-SH	13.95 (15)
Remote Wood Fern / Buckler Fern	Dryopteris remota	5	24-30"	18-24"		Hybrid of (<i>D. affinis</i> x <i>D. expansa</i>). Native to Europe. Semi-evergreen, upright form, lacy, glossy medium green fronds. Moist, well-drained, acidic soil, bright shade. Protect from wind.	PSH-SH	13.95 (8)
Robust Male Fern / Buckler Fern	Dryopteris x complexa 'Robust'	4	36-48"	36-48"		Elegantly arching, somewhat ruffled in appearance. New fronds open light-green, mature to darker green. Clump forming, vigorous growth habit. Rich, moist, well-drained soil. Will tolerate moderate drought once established. Partial to full shade.	PSH-SH	13.95 (1)
Toothed Wood Fern	Dryopteris spinulosa (syn. <i>D. carthusiana</i>)	4	18-30"	18-30"	Yes	NS Native species. A semi-evergreen, easy to grow fern that produces clumps of airy triangular blades of rich green color into autumn.	PSH-SH	13.95 (5)
Wallich's Wood Fern	Dryopteris wallichiana	6	23-47"	23-35"		Native to Japan, China, Asia. Upright clump of semi-evergreen fronds, black stems. New growth colour is butter-yellow. Tidy up in spring by removing any tired looking fronds. Cover with winter mulch until this fern has been established. Rich, moist, well-drained soil.	PSH-SH	13.95 (18)
Ostrich Fern /Shuttlecock Fern	Matteuccia					Deer Resistant		

FERNS 2020 Blue - New 2020 Common Name	Latin Name	Zone	Height (inches)	Spread (inches)	NS Native	Description	Exposure	Price/(# in Stock)
Ostrich Fern	Matteuccia struthiopteris	3	36 - 72"	60"	Yes	NS Native species. Vase shape, spreads by runners, moist to wet soil. Excellent planted near water. Among the first ferns to flush in spring, the source of edible fiddleheads.	PSH-SH	13.95 (22) 16.95 (18) 18.95 (60 L) 24.95 (4)
Cinnamon Fern / Royal Fern	Osmunda							
Cinnamon Fern	Osmunda cinnamomea	4	24-36"	24-36"	Yes	NS Native species. Large, upright fronds, also stiff cinnamon-colored spore-bearing fronds emerge from center of plant. Medium to wet soil.	PSH-SH	13.95 (6)
Royal Fern	Osmunda regalis	4	24-36"	24-36"	Yes	NS Native species. Massive crown above the ground. Coppery colored deciduous fronds. Are green then yellow-brown. Grows in clumps, requires moist soil.	PSH-SH	13.95 (1) (7)
Purple Royal Fern	Osmunda regalis 'Purpurascens'	5	24-48"	24-48"		A truly unique and spectacular fern! Wine-purple fountain of fronds in spring, changing to green. Wonderful when combined with burgundy-leaved heucheras. Prefers moist to wet, humusy soil.	PSH-SH	13.95 (1)
Christmas Fern / Sword Fern	Polystichum							
Christmas Fern	Polystichum acrostichoides	4	12-24"	12-24"	Yes	NS Native species. In spring young fiddleheads are silvery, opening to deep green evergreen fronds. Requires moist, well-drained, acidic soil.	PSH-SH	13.95 (9)
Soft Shield Fern	Polystichum setiferum	6	24-36"	24-36"		Native to SW & Central Europe. Lacy, lance-shaped, medium-green, semi-evergreen fronds. Stalks and midribs covered with attractive, cinnamon-brown scales. Prefers neutral to slightly acidic, rich, moist, well-drained soil. Mulch for added winter protection.	PSH-SH	13.95 (15)
Herrenhausen Soft Shield Fern	Polystichum setiferum 'Herrenhausen'	6	24"	24"		Species native to SW & Central Europe. Semi-evergreen, soft feathery textured, light green fronds form a tight clump. Moist, well-drained, neutral to slightly acidic, humusy soil.	PSH-SH	13.95 (5) (18)

FERNS 2020 Blue - New 2020 Common Name	Latin Name	Zone	Height (inches)	Spread (inches)	NS Native	Description	Exposure	Red - Three or less in stock Blue - New 2020-Supplier Price/(# in Stock)
Beech Fern / Marsh Fern	Thelypteris							
Japanese Beech Fern	Thelypteris decursive-pinnata	5	12-24"	12-18"		Narrow, upright, pale-green fronds that turn yellow in fall. Slowly spreads by runners. Moist, well-drained soil.	PSH-SH	13.95 (11)
Northern Marsh Fern	Thelypteris palustris	4	18-24"	18-24"	Yes	NS Native species. Lush bright green fronds, requires wet soil, sun to partial shade. Spreading habit, long creeping rhizomes.	PSH-SH	13.95 (10)
