Dark green, glossy foliage with light green undersides. Outstanding mixed fall colours of orange, yellow and red, rough grey bark. Full sun, well-drained soil.	249.95 (4)
Princeton Gold Norway Maple	Acer platanoides 'Princeton Gold'	4	11m	10m		Species Native to NE Europe to Caucasus. Small tree with bright yellow new growth. Oval shaped head	89.95 (3)
Royal Red Norway Maple	Acer platanoides 'Royal Red'	4	11 - 13m	9 - 12m		Species Native to NE Europe to Caucasus. Compact, oval to round habit. Maroon to purple leaves, colour lasts all summer. No significant fall colour. Excellent specimen tree. Full sun, average to moist conditions.	99.95 (4) 129.95 (3) 149.95 (17) 159.95 (5 Aug) 169.95 (1) 179.95 (5) 199.95 (8) 209.95 (2) 219.95 (4) 229.95 (4) 239.95 (3) 249.95 (1) 259.95 (1)
Regal Petticoat® Sycamore Maple	Acer pseudoplatanus 'Tunpetti' (Regal Petticoat)	4	12m	9m		Species Native to Central Europe & Asia. Vase-shaped form. Emerging foliage burgundy tinged, olive green with bright, red leaf-stems, turns dark green with velvety-purple undersides. Yellow fall colour. Full sun, average to moist, well-drained soil.	79.95 (4) 159.95 (15) 249.95 (9)
Red Maple	Acer rubrum	3	16m	15m	Yes	NS Native species. Well adapted to many soil types. Faster growing than Norway or sugar maples, but slower growing than silver maples. Full sun to partial shade. Will grow in average, moist to wet soil. Red flowers, red fruit (samaras). Excellent orange to red fall colour.	49.95 (21) 149.95 (1) 159.95 (6 Aug) 249.95 (4)
Redpointe® Red Maple	Acer rubrum 'Frank Jr.' (Redpointe)	4	14m	9m	Yes	Cultivar of NS Native. Fast-growing tree with easily maintained, even branched structure. Brilliant fall color appears early and is reliably bright red. Full sun to partial shade. Average, moist to wet soil.	159.95 (10)
Red Sunset Maple	Acer rubrum 'Franksred' (Red Sunset)	4	18m	12m	Yes	Cultivar of NS Native. Very hardy, excellent for street or lawn, retains fall colour for a long time. Full sun to partial shade. Average, moist to wet soil.	139.95 (20) 179.95 (5 Aug)
Sugar Maple	Acer saccharum	3	15 - 20 m	12 - 15 m	Yes	NS Native species. Slow growing, Yellow to orange red foliage in fall. Maple syrup is produced from the sap	49.95 (15) 59.95 (15) 99.95 (9) 129.95 (1) 149.95 (17) 159.95 (1) 169.95 (11) 199.95 (4) 229.95 (1) 259.95 (11)
Sugar Maple (Clump form)	Acer saccharum (Clump form)	3	15 - 20 m	12 - 15 m	Yes	NS Native species. Clump form. Slow growing, Yellow to orange red foliage in fall. Maple syrup is produced from the sap.	99.95 (5)
Bonfire Sugar Maple	Acer saccharum 'Bonfire'	4	16m	13m	Yes	Cultivar of NS Native. Broadly oval habit. Medium green foliage changes to bright orange to red for fall color.	139.95 (8)
Silver Maple	Acer saccharinum	3	18m	15m		Species Native to NB. very fast growing tree. Green on top of leaf, with silvery underside. Smooth grey bark becomes flaky with age. Full sun to partial shade. Adaptable to various soil conditions. Average, moist, to wet soil. Subject to weak or brittle branches when mature. Yellow fall colour.	39.95 (18) 49.95 (10) 89.95 (5) 99.95 (9) 149.95 (10)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Silver Cloud Silver Maple	Acer saccharinum 'Silver Cloud'	3	20m	9m		Cultivar of Species Native to NB. Strong, central leader and shapely upright, oval form. Attractive green maple leaves with bright, silvery undersides throughout the season. Good resistance to pests and diseases. Very hardy. Foliage turns yellow in fall.	99.95 (10 Aug)
Silver Queen Silver Maple	Acer saccharinum 'Silver Queen'	4	16 - 18m	13 -15m		Cultivar of Species Native to NB. Better upright branching and more dominant leader than others of the species. Seedless, or almost seedless. Brighter green summer foliage, silvery underside. Sharper yellow fall color than species. Average, moist to wet soil. Good for wet areas.	79.95 (11) 89.95 (3)
Three-flower Maple	Acer triflorum	5	8m	7m		Species Native to China & Korea. Yellow to claret-red foliage in fall. Bark is a grey and honey colored and peels in tight vertical curls	59.95 (26)
Horse Chestnut / Buckeye	Aesculus						
Horse Chestnut	Aesculus hippocastanum	5	20m	12m		Native to Balkans. Large white flower spikes in spring leading to chestnuts in the fall, leaves green in summer, yellow in fall	69.95 (1)
Baumann Horse Chestnut	Aesculus hippocastanum 'Baumani'	5	9m	7.5m		Double white flowers, that don't produce chestnuts, faster growing than other varieties	89.95 (3) 99.95 (5)
Ruby Red Horse Chestnut	Aesculus x carnea 'Briotii' (Ruby Red)	5	10m	12m		Oval to rounded shape. Large, showy, ruby-red, 20-25cm (8-10") upright terminal flower panicles, mid-spring. Large-lobed leaves provide dense shade. Flowers are followed by slightly prickly, husky capsules containing two or three nuts.	79.95 (10 Aug)
Red Buckeye	Aesculus pavia	5	4 - 5m	4 - 5m		Native to SE US. Clump-forming shrub or small tree. Shiny, palmate, dark-green leaves are attractive in spring & summer. Showy, upright clusters of bright-red, spring flowers are also attractive to hummingbirds. Flowers produce fruit (light-brown seed capsules called buckeyes), seeds ripen in fall, are toxic, avoided by most wildlife. Full sun to partial shade, moist, well-drained soil.	29.95 (11) 59.95 (7)
Serviceberry / Saskatoon Berry	Amelanchier					Attracts pollinators, birds	
Saskatoon Berry - See Fruit Tree List 2018	Amelanchier alnifolia - See Fruit Tree List 2018						
Downy Serviceberry (Single stem)	Amelanchier canadensis	3	6m	3m	Yes	NS Native species. Small tree with masses of white flowers in spring before foliage followed by edible, blue-purple berries that attract birds.	119.95 (5) (10 Aug)
Downy Serviceberry (Clump form)	Amelanchier canadensis	3	6m	3m	Yes	NS Native species. Clump form. White flowers in spring before leaves, blue-purple fruit in summer. Green leaves change to orange to red in fall	49.95 (14) 59.95 (17) 69.95 (23)
Rainbow Pillar Downy Serviceberry (Clump form)	Amelanchier canadensis 'Glennform' (Rainbow Pillar)	3	5 - 6m	2 - 3m	Yes	Cultivar of NS Native. Clump form. Upright, columnar growth habit. White flowers before leaves, then blue-purple berries. Foliage green in summer then different colors of red in fall.	39.95 (41)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Robin Hill Apple Serviceberry	Amelanchier x grandiflora 'Robin Hill'	3	6 - 8m	4 - 5m	Yes	Cultivar of NS Native. well-formed, oval-shaped crown with slightly ascending branches. Masses of pink buds open to large white flowers before leaves emerge in spring. Sweet, juicy, edible blue-black fruit in summer, also attract birds. Orange to red fall colour.	69.95 (10 Aug)
Spring Flurry Allegheny Serviceberry (Clump form)	Amelanchier laevis 'JFS-ARB' (Spring Flurry)	3	11m	6m	Yes	Cultivar of NS Native. Clump form. Upright oval shape. Medium green leaves change to orange red in fall. White flowers produce edible purplish-blue fruit	134.95 (4)
Paw Paw	Asimina					Native to Southern Ontario/Southeastern US - Edible fruit - Medium to wet soil	
Paw Paw Tree	Asimina triloba	5	5 - 6m	5 - 6m		Small understory tree. Often spreads by root-suckers to form thicket. Medium green leaves turning yellow in the fall. Cup-shaped, slightly fetid-scented, purple flowers in spring, may give way to edible yellowish green fruit, which is also attractive to wildlife. It is difficult to produce fruit. Flowers have both male & female parts, but are not self-pollinating. Requires another genetically distinct Paw Paw tree for pollination. Pollen is transferred by flies or beetles, not bees. May require hand pollination to produce greater abundance of fruit. Full sun to partial shade. Medium to wet soil, tolerates boggy areas.	29.95 (17) (25)
Birch	Betula						
Yellow Birch (Swamp Birch)	Betula alleghaniensis	2	25m	5 m +	Yes	NS Native species. Bark reddish brown when young. Pale yellow to silvery grey or brown	39.95 (2) 49.95 (23) 59.95 (22) 79.95 (22) 99.95 (4)
Yellow Birch (multi-stemmed clump form)	Betula alleghaniensis (multi-stemmed)	2	25m	5 m +	Yes	NS Native species. Clump form. Bark reddish brown when young. Pale yellow to silvery grey or brown	89.95 (7)
River Birch	Betula nigra	4	12 - 21m	12 - 18m		Native to Eastern US. Pyramidal when young, matures to more rounded form. Attractive salmon-pink to reddish brown exfoliating bark. Leathery, diamond-shaped dark green toothed leaves turn yellow in fall. Vigorous, fast growing. Prefers moist to wet, acidic soil but also adaptable to drier locations. Full sun to partial shade. Very resistant to bronze birch borer.	39.95 (10) 49.95 (10)
Dura Heat River Birch	Betula nigra 'BNMTF' (Dura Heat)	4	10 -13m	7 - 10m		Somewhat smaller than species, with brighter, creamy-white bark colour, superior foliage. More heat & drought tolerant than species, with superior insect and disease resistance. Leathery, dark, green leaves turn outstanding yellow in fall. Full sun to partial shade. Moist to wet, acidic soil but very adaptable to hotter and drier conditions locations. Very resistant to bronze birch borer.	59.95 (10)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Fox Valley® Dwarf River Birch	Betula nigra 'Little King' (Fox Valley)	4	2 - 3m	2 - 4m		Dwarf, multi-stemmed, dense, rounded shape, compact growth with irregular crown. Leathery, diamond-shaped leaves are dark green in summer, bright yellow in the fall. Showy, orange to brown-colored exfoliating bark reveals lighter, inner colour. Makes an excellent specimen tree where space is limited. Full sun to partial shade. Moist to wet, acidic soil but adapts to drier locations. Very resistant to bronze birch borer.	59.95 (15) 179.95 (1)
Heritage® River Birch (single-stemmed)	Betula nigra 'Cully' (Heritage)	4	12 - 21m	12 - 18m		Single stem form. Medium sized, fast-growing tree with leathery, dark green foliage throughout the season, turning outstanding yellow in the fall. Ornamental salmon-cream to brown bark, exfoliates to reveal lighter, inner cream-white colour. Full sun to partial shade. Moist to wet, acidic soil but adapts to drier locations. Very resistant to bronze birch borer and good resistance to leaf spot diseases.	69.95 (2) 99.95 (9)
Heritage® River Birch (multi-stemmed clump form)	Betula nigra 'Cully' (Heritage)	4	12 - 21m	12 - 18m		Clump form, medium sized, fast-growing tree with leathery, dark green foliage throughout the season, turning outstanding yellow in the fall. Ornamental salmon-cream to brown bark, exfoliates to reveal lighter, inner cream-white colour. Full sun to partial shade. Moist to wet, acidic soil but adapts to drier locations. Very resistant to bronze birch borer and good resistance to leaf spot diseases.	99.95 (10) (15 Aug)
Shiloh Splash Variegated River Birch	Betula nigra 'Shiloh Splash'	4	9 - 10m	4 - 5m		Upright, oval shape, smaller than species. Showy, variegated leaves open with pink-tinge, mature to ivory-white with green centers. Ornamental salmon-pink to reddish-brown, exfoliating bark reveals lighter, creamy-white colour underneath. Prefers full sun. Moist to wet, acidic soil but adaptable to drier locations. Excellent specimen. Very resistant to bronze birch borer.	99.95 (1)
Canoe or Paper Birch (single-stemmed)	Betula papyrifera	3	15 - 20m	7 - 15m	Yes	NS Native species. Pyramidal to oval shape. Green leaves with toothed margins turns yellow in fall. Best known for showy, white bark with black markings. Bark peels with age. Prefers acidic, moist, well-drained soil. Full sun to partial shade.	59.95 (15)
Canoe or Paper Birch (multi-stemmed clump form)	Betula papyrifera	3	15 - 20m	7 - 15m	Yes	NS Native species. Pyramidal to oval shape. Green leaves with toothed margins turns yellow in fall. Best known for showy, white bark with black markings. Bark peels with age. Prefers acidic, moist, well-drained soil. Full sun to partial shade.	54.95 (5) 69.95 (10) 89.95 (10)
European White (Silver) Birch	Betula pendula	3	9 - 12m	4.5 - 9m		Native to Europe, Asia. Gracerei, arching, open-branched, pyramidal form when young, matures oval to rounded form. Toothy, diamond-shaped foliage. Flaky white bark, yellow fall colour. Full sun, moist, well-drained soil.	89.95 (2)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Young's Weeping Birch	Betula pendula 'Youngii'	3	5 - 7m	5 - 6m		Small to medium-sized tree with erratic, pendulous branching. Oval, serrated green leaves turn yellow in fall. Bright white smooth bark on trunk and older branches,	99.95 (2)
Royal Frost Birch	Betula 'Royal Frost'	4	9m	5m		Hybrid - (B. populifolia 'Whitespire' (Grey Birch) x B. 'Crimson Frost' (Cultivar of Japanese White Birch). Upright, pyramidal shape. Burgundy-red to purple leaves, white exfoliating bark. Yellow-orange to red fall colour. Full sun, needs consistently moist, well-drained soil.	39.95 (9)
Whitebarked Himalayan Birch (single-stemmed)	Betula utilis var. jacquemontii	5	8m	5m		Native to Western Himalayas. Brightest white bark of any birch. Dark green foliage turns yellow in fall. Showy catkins in spring. Full sun, with consistently moist, well-drained soil.	99.95 (1)
Whitebarked Himalayan Birch (multi-stemmed clump form)	Betula utilis var. jacquemontii	5	8m	5m		Native to Western Himalayas. Brightest white bark of any birch. Dark green foliage turns yellow in fall. Showy catkins in spring. Full sun, with consistently moist, well-drained soil.	99.95 (4) (15 Aug) 114.95 (14)
Parkland Pillar® Japanese White Birch	Betula platyphylla 'Jefpark' (Parkland Pillar)	5	6 - 10m	3- 4m		Species native to Japan. Narrow, upright, columnar form. Dense, dark-green foliage with contrasting white bark. Yellow fall colour. Ideal accent tree or summer privacy screen. Prefers full sun to partial shade, moist, well-drained soil. Heat & drought tolerant.	69.95 (10) 89.95 (1) 109.95 (8)
Whitespire Grey Birch	Betula populifolia 'Whitespire'	4	6 - 12m	3 - 6m	Yes	Cultivar of NS native. Narrow, columnar, suckering habit. Attractive, non-peeling, chalky-white bark. Shiny, triangular-shaped, double-toothed green leaves, no appreciable fall colour. Good for naturalized areas, has shallow root system. Full sun to partial shade, moist, well-drained soil. Will adapt to wet or dry soils. Some resistance to bronze birch borer.	79.95 (2)
Hornbeam / Blue Beech	Carpinus						
European Hornbeam	Carpinus betulus	5	16 -18m	9 -12m		Native to Europe. Ascending upright to oval-rounded, growth habit, spreading with age. Foliage turns an undistinguished yellow to orange in the fall. Smooth, gray bark has distinctive, muscle-like fluting. Ornamental winter buds, spring catkins. Full sun to partial shade. Prefers moist, well-drained soil but is adaptable to heat & drought.	44.95 (1) 49.95 (13)
Pyramidal European Hornbeam	Carpinus betulus 'Fastigiata'	5	9 - 12m	6 - 9m		Narrow, upright form when young, maturing to oval shape. Medium-green foliage turns yellow to orange in the fall. Smooth, grey bark has distinctive, muscle-like fluting. Ornamental winter buds, spring catkins. Full sun to partial shade. Prefers moist, well-drained soil but is adaptable to heat & drought.	79.95 (1)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Blue Beech / American Hornbeam	Carpinus caroliniana	4	6 - 10m	6 - 10m		Native to Eastern NA. Attractive, understory tree with unique, smooth grey bark with "muscle-like" fluting. Ornamental winter buds, spring catkins. Dark-green leaves turn yellow, orange and red in fall. Full sun to partial shade. Prefers moist, well-drained soil but is adaptable to heat & drought.	249.95 (2)
Firespire American Hornbeam	Carpinus caroliniana 'Firespire'	4	7m	3m		Native to Eastern NA. Narrower, more upright form, very interesting, smooth, slate-grey bark is almost muscular in appearance, makes a strong winter statement. Excellent orange-red fall color and curious hop-like fruit. Full sun to full shade. Moist, well-drained soil.	179.95 (3)
Shagbark Hickory	Carya					Attracts wildlife - Taprooted	
Shagbark Hickory	Carya ovata	4	25m	17m		Native to Eastern NA. Large tree, with oval to rounded crown. Smooth, medium, yellow-green, compound leaves, turning yellow to golden brown in fall. Non-showy spring flowers produce edible, oval-rounded nuts, which split open in four sections when ripe in fall. Nuts are attractive to wildlife. Smooth, grey bark when young, exfoliates in long strips with age. Full sun to partial shade. Rich, moist, well-drained soil.	35.95 (10)
Northern Catalpa	Catalpa					Native to East Central USA (Tennessee to Indiana) - Consistently moist, well-drained soil	
Northern Catalpa	Catalpa speciosa	5	12 - 21m	6 - 15m		Very tall, irregular rounded, rather coarse form in winter. Very large, light-green to yellow green, heart-shaped leaves. Large, showy, bell-shaped, orchid-like, white blooms with purple & yellow interior spotting, in late spring, produce long, slender, green seed pods, turning brown in fall. Yellow fall colour. Full sun to partial shade. Consistently moist, well-drained soil.	32.95 (10) 49.95 (10)
Japanese Katsura	Cercidiphyllum					Consistently moist, well-drained soil - Native to China, Japan	
Japanese Katsura Tree	Cercidiphyllum japonicum	5	18m	15m		Dense, pyramidal when young, more rounded when mature. Heart shaped leaves emerge reddish-purple in spring, changing to blue-green in summer. Beautiful golden-yellow with tinges of orange and red fall colour. Fallen foliage fragrant like cotton candy. Requires consistently-moist, well-drained soil, full sun to partial shade.	89.95 (24) 159.95 (3)
Red Fox Japanese Katsura Tree	Cercidiphyllum japonicum 'Rotfuchs' (Red Fox)	5	12m	7.6m		Medium-sized tree with narrow, upright habit. In spring, leaves emerge deep purple, fading to blue-green later in season. Fall colour beautiful golden-yellow, with tinges of orange and red. Full sun to partial shade. Consistently moist, well-drained soil.	59.95 (4)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Upright Weeping Japanese Katsura Tree	Cercidiphyllum magnificum 'Pendulum'	5	6 - 7.5m	4.5m		Dominant leader with weeping secondary branches. Foliage opens with a reddish tinge that fades as the leaf matures to a blue-green. Fall color yellow tinged with red. Full sun to partial shade. Requires consistently moist, well-drained soil.	129.95 (1)
Eastern Redbud	Cercis canadensis					Deer Resistant - Native to Central & Eastern NA - Site Protected from Winter NW Winds - Does not like to be moved	
Eastern Redbud	Cercis canadensis	5	6 - 9m	7 - 10m		Multi-trunked, understory tree with rounded crown. Stunning, pea-shaped, rose-purple flowers in May, before leaves. Pointed, heart-shaped, green to blue-green leaves turn soft-yellow in fall. Full sun to partial shade. Consistently moist, fertile, well-drained soil. Does not tolerate boggy conditions. Good in naturalized settings.	59.95 (13)
Forest Pansy Eastern Redbud	Cercis canadensis 'Forest Pansy'	6	6 - 9m	7 - 10m		Understory tree with rounded crown. Beautiful, rose-purple, pea-shaped flowers on bare branches. Large, pointed, heart-shaped, leaves emerge reddish-purple, maturing to maroon. Fall is colour variable, often reddish-purple and orange. Needs consistently moist, fertile, well-drained soil. Does not tolerate boggy conditions. Good in naturalized settings.	89.95 (5)
Hearts Of Gold Eastern Redbud	Cercis canadensis 'Hearts of Gold'	6	6 - 9m	7 - 10m		Understory tree with rounded crown. Tiny, pea-shaped, rose-purple flowers appear before the leaves. New heart-shaped, pointed leaves emerge with orange-red coloration, maturing to bright-yellow. Golden leaves fade to chartreuse as summer progresses. In partial shade, leaves will be greener. Full sun to partial shade. Average to moist, fertile, well-drained soil.	89.95 (9)
Lavender Twist Weeping Eastern Redbud	Cercis canadensis 'Covey' (Lavender Twist)	6	1.5 - 3m	1.5 - 3m		weeping form, with contorted, pendulous branches. Must be staked to achieve taller height. Rose-purple, pea-shaped flowers before foliage in spring. New heart-shaped, pointed leaves emerge reddish, maturing to blue-green, turning to yellow in fall. Average to moist, fertile, well-drained soil.	139.95 (1) 179.95 (6)
Little Woody Dwarf Eastern Redbud	Cercis canadensis 'Little Woody'	6	3 - 4m	2.5 - 3m		Dwarf, vase-shaped cultivar. Clusters of tiny, purple, pea-like flowers in spring before leaves. Small, thick, lightly-crinkled, heart-shaped, blue-green leaves turn yellow in fall. Prefers full sun to partial shade, in moist, fertile, well-drained soil.	139.95 (4)
Pink Heartbreaker Weeping Eastern Redbud	Cercis canadensis 'Pink Heartbreaker'	6	4 - 5m	3 - 4m		weeping form, strong, wide branching habit. Lavender-pink, sweet-pea-like flowers, before foliage. New foliage opens scarlet-red, becoming deep-green in summer. Taller, wider form than 'Covey' (Lavender Twist). Yellow fall colour. Full sun to partial shade. Prefers moist, fertile, well-drained soil.	199.95 (3)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
The Rising Sun Redbud	Cercis canadensis 'JN2' (The Rising Sun)	6	2.4 - 4m	2.4 - 4m		Rounded crown. Abundant, pea-like, rose-pink flowers cover the bare branches in spring. Large, heart-shaped leaves open deep, apricot-orange, maturing to yellow, then speckled lime-green in summer. New leaves emerge during summer, evoke continual mix of colour. Leaves turn rich, golden-orange in fall. Heat and burn resistant foliage. Full sun to partial shade for best colour. Moist, fertile, well-drained soil.	99.95 (5)
Ruby Falls Eastern Redbud	Cercis canadensis 'Ruby Falls'	6	2m	1.5m		Compact habit, weeping, contorted form. Hybrid (C. 'Covey' x C. 'Forest Pansy'). Rose-purple, pea-like flowers in spring before leaves. Heart-shaped, pointed leaves emerge glossy, dark maroon-red, becoming burgundy, then changing to green later in summer. Yellow fall colour. Full sun to partial shade. Moist, fertile, well-drained soil.	89.95 (1)
Fringe Tree	Chionanthus - See also Standards 2018 List					Attracts pollinators, wildlife	
Tokyo Tower Chinese Fringe Tree SOLD OUT	Chionanthus retusus 'Tokyo Tower' SOLD OUT	6	4 - 5m	1.2 - 2m		Native to China, Korea & Japan. Narrow, strongly upright branches, with showy tan and gold, exfoliating bark. Abundant bloom appears 2-3 weeks before C. virginicus. Showy spring flowers are white, fringe-like. Dioecious, separate male & female plants. Male flowers are showier than female. Female flowers give way to clusters of olive-like, bluish-black fruit in fall that provide food for birds and wildlife. Dark-green foliage turns yellow in fall. Full sun to partial shade. Moist, fertile, well-drained soil.	229.95 (2)
White Fringe Tree	Chionanthus virginicus	4	4 - 6m	4 - 6m		Native to Eastern US. Shrubby, small tree in the olive family, with spreading, open, rounded habit. Airy panicles of lightly-fragrant, fringe-like, creamy-white flowers in June. Dioecious, separate male & female plants. Male flowers are showier than female. Female flowers give way to clusters of olive-like, bluish-black fruit in fall that provide food for birds and wildlife. Attractive, wide, 20cm (8") long, green leaves turn yellow in fall. Prefers full sun to partial shade. Moist, fertile, well-drained soil.	69.95 (10) 199.95 (3)
Yellowwood	Cladrastis					Native to South-Eastern US	

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
American Yellowwood	Cladrastis kentukea (lutea)	5	9 - 15m	12 - 16m		Medium-sized tree in the pea family, with upright branching, broad, rounded crown. Intensely fragrant, wisteria-like, 25-38cm (10-15") long white flowers cover the tree in late spring. Note: tree can be slow to flower. Lacy, pinnately compound leaves open yellow-green, maturing to bright green in summer, turning yellow in fall. Flat seed pods, up to 10cm (4") long, ripen in fall. Full sun. Moist, well-drained soil. Good as shade tree, near patios, lawns.	49.95 (10) 159.95 (1) 199.95 (3)
Pagoda Dogwood	Cornus alternifolia					NS Native species - Deer Resistant - Attracts pollinators, birds	
Pagoda Dogwood	Cornus alternifolia	4	5 - 7.6m	6 - 10m	Yes	NS Native species. Small understory tree with distinctive, tiered, horizontal branching. Small, fragrant clusters of yellowish-white flowers in late spring, produce ripened clusters of bluish-black fruits on red stems late summer. Fruit very attractive to songbirds. Alternately arranged green leaves turn reddish-purple in fall. Full sun to partial shade. Moist, fertile, well-drained soil.	29.95 (15) 79.95 (1) 99.95 (8)
Golden Shadows® Pagoda Dogwood	Cornus alternifolia 'W Stackman' (Golden Shadows)	4	3 - 6m	3 - 6m	Yes	Cultivar of NS Native. Beautiful, golden leaves with irregular green "thumbprint" centers. Pinkish colouring on new growth. Layered branching, with clusters of white flowers in spring, followed by purple-black fruit in fall, adored by birds. Pink/red foliage highlights in fall. Very slow growing. Partial to light shade. Rich, moist, well-drained soil.	59.95 (10)
Variegated Pagoda Dogwood	Cornus alternifolia 'Variegata'	4	3 - 5m	4 - 6m	Yes	Cultivar of NS Native. Beautiful, tiered, horizontal branching. Yellowish-white clusters of flowers atop branches in spring. Showy, variegated, alternately arranged, green and white leaves. Clusters of bluish-black fruit on red stems in fall beloved by birds. Partial to light shade. Rich, moist, well-drained soil.	159.95 (2)
Flowering Dogwood	Cornus florida					Deer Resistant - Native to Eastern NA - Attracts birds	
Cherokee Princess Dogwood	Cornus florida 'Cherokee Princess'	5	6 - 10m	6 - 10m		Small understory tree low branching, broadly pyramidal with flat-topped crown. Blooms in early spring. Each button-like flower cluster is surrounded by four, large, showy, white, petal-like bracts. This variety known for consistent, heavy bloom. Flowers produce bright red berries in fall, attractive to birds. Oval, dark-green leaves turn shades of red in fall. Full sun to partial shade. Prefers rich, moist, well-drained soil.	179.95 (2)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Chinese / Kousa Flowering Dogwood	<i>Cornus kousa</i>					Native to Asia - Full sun to partial shade - Rich, moist well-drained soil - Fruit attracts birds	
Aurora Hybrid Dogwood	<i>Cornus</i> x 'Rutban' (Aurora)	6	4 - 6m	4 - 6m		Rutger hybrid (<i>C. kousa</i> x <i>C. florida</i>). Dense, upright to spreading habit. Vigorous grower. Silverbell	Halesia carolina						
Arnold Pink Silverbell	Halesia carolina 'Arnold Pink'	5	10 - 12m	5 - 6m		Native to SE US. Upright, spreading, rounded form. Blooms in early spring with clusters of bell-shaped, pendulous, rose-pink, flowers that lighten to lighter pink with age, later producing brownish, four-winged, nut-like fruit that ripens in fall, persists into winter. Light green leaves turn yellow in fall. Partial shade, rich, moist, acidic, well-drained soil. Good with rhodas and azaleas, or a woodland garden.	199.95 (3)
Seven-Sons Tree	Heptacodium					Attracts pollinators	
Seven-Sons Tree (single-stemmed)	Heptacodium miconioides	6	5 - 6m	2.5 - 3m		Native to China, now rare in wild. Single stemmed, tree form. Terminal clusters of fragrant, nectar-rich, creamy-white flowers in late summer to early fall, very attractive to pollinators. Flowers, in clusters of seven, (hence the name), are followed by small, fruit, each crowned by a showy, starry cluster of five, cherry-red calyces that persist on the tree until frost. Ornamental, tan, exfoliating bark. Good in shrub border or woodland garden. Full sun to partial shade, average to moist, well-drained soil.	79.95 (8) 89.95 (6)
Seven-Sons Tree (multi-stemmed clump form)	Heptacodium miconioides	6	5 - 6m	2.5 - 3m		Clump, multi-stemmed, shrub form. Native to China, now rare in wild. Terminal clusters of fragrant, nectar-rich, creamy-white flowers in late summer to early fall, very attractive to pollinators. Flowers, in clusters of seven, (hence the name), are followed by small, fruit, each crowned by a showy, starry cluster of five, cherry-red calyces that persist on the tree until frost. Ornamental, tan, exfoliating bark. Good in shrub border or woodland garden. Full sun to partial shade, average to moist, well-drained soil.	89.95 (3)
Walnut	Juglans					Drought tolerant - Tap-rooted - Attracts wildlife	
Eastern Black Walnut	Juglans nigra	5	22 - 30m	22 - 30m		Native to Eastern US. Large tree, oval to rounded crown, requires space, not suitable as a street tree. Compound leaves emerge late in spring and drop early in fall. Nuts mature in fall, falling to ground, attract wildlife. Edible, but hard to extract. Root system produces chemical called Juglones within drip line of tree, toxic to many plants, including azaleas and rhodas, peonies, blueberries, tomatoes, peppers, potatoes, etc. Requires full sun, moist, well-drained soil. Drought tolerant. Tap-rooted.	39.95 (6) 44.95 (8) 49.95 (10)
Golden Rain Tree	Koelreuteria paniculata					Native to Northern China.	

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Golden Rain Tree	<i>Koelreuteria paniculata</i>	6	12m	10m		Small, open, irregularly branched tree with rounded crown. Feathery, compound leaves emerge purplish, maturing to bright green in summer, changing to yellow in fall. Bright yellow, long, 30-35cm (12-15") flower panicles appear in early summer. Fallen blossoms form an attractive yellow carpet underneath, hence the name. Flowers give way to papery seed capsules that resemble Chinese lanterns. Full sun. Average to dry soil.	189.95 (2)
Golden Chain Tree	Laburnum						
Golden Chain Tree	<i>Laburnum x watereri 'Vossii'</i>	6	4.5 - 8m	4.5 - 8m		Showy, long (60cm), pendulous, wisteria-like clusters of yellow pea-shaped flowers in late spring. Flowers produce seedpods that ripen in fall. All parts of this tree are poisonous. Full sun to partial shade. Rich, moist, well-drained soil.	169.95 (3) (10 Aug)
Sweet Gum	Liquidambar					Deer Resistant	
Sweet Gum	<i>Liquidambar styraciflua</i>	5	18m	12m		Pyramidal in youth, matures to oval, rounded crown. Attractive, glossy- green, pointed, star-shaped foliage turns brilliant yellow, oranges, purples and reds in fall. Unusual, corky bark. Female flowers give way to hard, bristly "gumballs" that usually remain on the tree through the winter, before dropping. Not good as a street tree, as fallen fruit may create slipping hazard. Full sun, average to medium moisture. Needs room to grow.	49.95 (15)
Slender Silhouette Sweet Gum	<i>Liquidambar styraciflua 'Slender Silhouette'</i>	5	15 - 16m	2 - 3m		Slender or columnar tree. Glossy, deeply-lobed, dark green leaves. Nearly sterile cultivar, few "gumball" fruit are produced. Fall color is beautiful mixture of yellows, oranges, reds to purple. Full sun, average to medium moist soil and space for root development.	179.95 (2)
Worplesdon Sweet Gum	<i>Liquidambar styraciflua 'Worplesdon'</i>	5	18m	17m		Pyramidal when young, oval to rounded crown with age. Glossy, dark green leaves change to beautiful yellow, reds, oranges & purples in the fall. Female flowers give way to hard, bristly "gumballs" that usually remain on the tree through the winter, before dropping. Full sun, average to medium moist soil and space for root development.	179.95 (3)
Tulip	Liriodendron					Native to Eastern NA - Deer Resistant	
Emerald City® Tulip Tree	<i>Liriodendron tulipifera 'JFS-Oz' (Emerald City)</i>	5	15 - 17m	6 - 8m		Upright conical growth habit, strong central leader, column-like trunk. Distinctive, cup-shaped, tulip-like, yellow flowers with an orange band at base of each petal in late spring. Flowers open after leaves are already on the tree. Four-lobed, bright-green leaves turn golden-yellow in fall. Prefers full sun, rich, moist, well-drained soil.	239.95 (3)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Magnolia	Magnolia					Site in location protected from NW winter winds - Full sun to partial shade - Rich, moist, well-drained, acidic soil - Mulch root zone	
Cucumber Tree	Magnolia acuminata	4	12 - 21m	6 - 10m		Native to Eastern N.A. Large, straight-trunked, with pyramidal crown. Slightly fragrant, greenish-yellow, tulip-like flowers in May. Fruit is followed by cone-like, green, warty, cucumber-like fruit (seedcones). Fruits mature to showy, red colour late summer. Yellow fall colour. Prefers rich, moist, well-drained loams in full sun to partial shade. Can be intolerant of soil extremes (dry or wet). Needs space.	79.95 (3)
Alexandrina Saucer Magnolia	Magnolia x soulangeana 'Alexandrina'	6	6 - 9m	6 - 9m		Hybrid (M. denudata x M. liliflora) Usually multi-stemmed tree with rounded crown. Flowers open before foliage in early spring, are fragrant, purple-pink with white interiors.	139.95 (2)
Atlas Magnolia	Magnolia 'Atlas'	6	4m	3m		Mark Jury, NZ hybrid. Upright, rounded tree with huge, fragrant, 35cm wide, lilac-pink, cup-like flowers with creamy white interiors. Midseason bloom. Ht & spr in 10 years.	139.95 (1)
Betty (Little Girls Series) Magnolia	Magnolia 'Betty'	5	3 - 5m	2.5 - 4m		Hybrid (M. liliflora 'Nigra' x M. stellata 'Rosea') One of "Little Girl" series. Multi-stemmed, shrubby form. Blooms 2-4 weeks later than star and saucer magnolias. Large, cup-shaped, reddish-purple flowers with white interiors, just before foliage appears. Foliage emerges with copper-red tints in spring, maturing to deep green. May bloom sporadically later in summer. Yellow to bronze, copper-toned fall colour.	79.95 (10) 119.95 (1)
Black Tulip™ Magnolia SOLD OUT	Magnolia x soulangeana 'Jermag!' (Black Tulip) SOLD OUT	6	4.5 - 6m	1.8 - 3m		Mark Jury, NZ hybrid (M. liliflora 'Nigra' x M. 'Lanarth'). Multi-stemmed form. Large, 15cm (6") across, tightly rounded, fragrant, deepest, red-purple, goblet-shaped blooms, before foliage emerges.	99.95 (2)
Blushing Belle Magnolia	Magnolia 'Blushing Belle'	5	6 - 9m	5 - 6m		D. Ledvina hybrid (M. 'Yellow Bird' x M. 'Caerhays Belle'). Upright growth habit. Blooms similar to 'Caerhays Belle', but much hardier. Large, 15cm (6") blooms open wide, have a deep pink exterior and lighter pink interior.	89.95 (1)
Butterflies Magnolia	Magnolia 'Butterflies'	5	5 - 7m	3 - 5m		Hybrid (M. acuminata x M. denudata) Upright, pyramidal habit, single-stemmed tree. Produces non-fading, upright, tulip-shaped, fragrant, butter-yellow flowers in early spring before foliage.	129.95 (2)
Centennial Star Magnolia	Magnolia kobus var. stellata 'Centennial'	5	5m	3 - 5m		Multi-stemmed, shrubby form. Prolific blooms, early spring, large, very fragrant, creamy-white, star-like, strappy blooms with a pink blush in the center. Flowers before leaves emerge.	79.95 (5)
Cleopatra Magnolia	Magnolia 'Cleopatra'	6	3 - 4m	2 - 3m		Hybrid parentage (M. 'Black Tulip' x 'Sweet Simplicity'). Pyramidal, multi-stemmed habit. Beautiful, large (20cm), fragrant, deep pink to purple-red, cupped flowers in spring before leaves.	169.95 (1)

TREES 2018 Blue - New 2018 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2018 Price/(#Stock)
Daybreak Magnolia	Magnolia 'Daybreak'	6	6 - 8m	2 - 4m		Hybrid (M. x brooklynensis 'woodsman' x M. 'Tina Durio'). Columnar form, narrow habit. Large, 20-25cm, fragrant, unique shade of blush-pink flowers in late spring. Medium-green leaves have wavy margins.	89.95 (2)
Double Diamond Yulan Magnolia	Magnolia denudata 'Double Diamond'	6	5 - 8m	5 - 8m		Species native to Eastern & Southern China. Rounded, spreading crown. Pure-white, fragrant, goblet-shaped flowers, before leaves emerge. Flowers give way to cone-like fruit, mature to red, late summer.	139.95 (3)
Edith Bogue Large-flowered Magnolia	Magnolia grandiflora 'Edith Bogue'	6b - 7a	10m	5m		Species native SE US. Most hardy cold variety of the evergreen M. grandifloras. Still needs a protected site. Tightly pyramidal habit. Large, lemony-fragrant, ivory-white blooms. Flowers give way to red, cone-like fruiting clusters, ripening in fall. Evergreen, deep-green foliage, may become deciduous in colder climate.	69.95 (5)
Elizabeth Magnolia	Magnolia 'Elizabeth'	5	6 - 10m	3.6 - 6m		Hybrid (M. acuminata x H. denudata). Fragrant, tulip-shaped, 7.6cm (3") wide, yellow flowers have tinges of yellow-green near base. Flowers bloom at branch tips, same time as leaves begin to unfurl. Sterile variety, rarely produces fruit.	89.95 (1) 99.95 (4)
Galaxy Magnolia	Magnolia 'Galaxy'	5	6 - 9m	3 - 4.5m		Hybrid (M. illinoensis 'Nigra' x M. sprengeri 'Diva'). Large, narrow, pyramidal, single-trunked tree with ascending branching. Dark, red-purple in bud open to large, fragrant, reddish-purple blooms in late spring, avoids risk of frost damage.	79.95 (5) 79.95 (4) 199.95 (2)
Genie Saucer Magnolia	Magnolia soulangeana 'Genie'	6	3-4m	1.5m		Hybrid (M. soulangeana x M. illinoensis 'Nigra') from New Zealand. Beautiful black-red tulip-shaped buds open to deep red-purple to ruby-red, slightly-fragrant, goblet-shaped blooms, late spring. Often re-blooms, late summer. Ht & Spr in 10 yrs.	99.95 (2)
Gold Star Star Magnolia	Magnolia 'Gold Star'	5	6 - 8m	5 - 6m		Hybrid (M. acuminata 'Miss Honeybee' x M. stellata 'Rubra') Star shaped, light yellow, frost-tolerant flowers. Blooms a little later than other Stars. Leaves start out bronze maturing to medium green.	119.95 (1)
Golden-Rain Magnolia SOLD OUT	Magnolia 'Golden-Rain' SOLD OUT	5	5 - 8m			Tetraploid cross (M. acuminata x M. kobus 'Norman Gould'). Vigorous, tall-growing. Blooms late spring. Large, medium yellow, downward-facing flowers. Attractive, bronzy-coloured new foliage.	99.95 (1)
Judy Zuk Magnolia	Magnolia 'Judy Zuk'	5	6 - 8m	2 - 2.4m		Cultivar of M. x brooklynensis. Upright form. Large, sterile, tulip-shaped, fragrant, yellow flowers with distinctive orange, apricot & pink highlights, and plum tinges at base. Large, green leaves. Named in honor of President of Brooklyn Botanic Garden.	189.95 (2)
