

VINES 2018 Blue - New 2018 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Red - Three or less in stock Blue - New 2018 Price/(#Stock)
Hardy Kiwi Vine	Actinidia					Native to Eastern Asia, China & Japan - Edible fruit - Attracts pollinators		
Hardy (Male) Kiwi Vine	Actinidia arguta (male)	5	7.5 - 9m			Fast-growing, twining, woody vine. Male kiwi, pollinates A. arguta species. One male can pollinate up to eight females.	June	16.95 (14) 29.95 (5)
Dumbarton Oaks (Female) Hardy Kiwi Vine	Actinidia arguta 'Dumbarton Oaks'	5	7.5 - 9m			Female kiwi. Shiny, ovate deep green leaves, fragrant white flowers. Small, edible fruit in Sept to Oct. Needs a male pollinator. Full sun to part shade. Moist, well-drained soil.	June	16.95 (5) 29.95 (26)
Issai Hardy (self-fruitful) Kiwi Vine	Actinidia arguta 'Issai'	5	4 - 6m	1 - 1.5m		Self-fruitful. Twining, wood, deciduous vine. This variety is not as fast-growing as species, needs less pruning. Shiny, deep-green leaves. Fragrant, greenish-white flowers in June produce smooth-skinned, sweet, edible, green fruit in fall. Fruits may be eaten skin and all like grapes. Full sun to partial shade. Moist, well-drained soil.	June	22.95 (15) 29.95 (21)
Meader (Female) Hardy Kiwi Vine	Actinidia arguta 'Meader' (female)	5	7.5 - 9m			Meader can be either male or female. Our stock are female, with medium sized fruit. Pollinate with male Actinidia arguta.	June	16.95 (14) 29.95 (4)
Porcelain Vine	Ampelopsis					Attracts birds		
Elegans Variegated Porcelain Vine	Ampelopsis brevipedunculata 'Elegans'	5	3 - 6m			Native to NE Asia. Vigorous, woody vine, needs a support (or may be grown as groundcover without support). Clings by tendrils. Mostly, three-lobed green leaves are variegated with white. Pink stems. Young leaves have a pinkish tinge. Inconspicuous greenish flowers mid-summer produce eye-catching berries in fall. Clusters of fruit are light blue, ripening to bright, turquoise-blue, attractive to birds. Flowers on new growth. May be pruned back hard every 2-3 years to 30cm from ground. Full sun to partial shade. Average to moist, well-drained soil.	July	19.95 (29)
Dutchman's Pipe	Aristolochia					Deer Resistant		
Dutchman's Pipe	Aristolochia durior (syn. A. macrophylla)	5	8-10m	6-10m		Native to Eastern US. Fast-growing vine, vigorous, twining habit, excellent for screening. Needs strong support. Huge, 20cm, glossy, deep-green, heart-shaped leaves. Produces inconspicuous, brown pipe-like flowers in late spring. Prune after flowering to maintain desired size. Full sun or partial shade. Moist, well-drained soil. Intolerant of dry soil.		35.95 (2)
Trumpet Vine	Campsis					Deer Resistant - Attracts hummingbirds		

VINES 2018 Blue - New 2018 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Red - Three or less in stock Blue - New 2018 Price/(#Stock)
Yellow Trumpet Vine	Campsis radicans f. flava	5	5m	1.5 - 3m		Native to SE US. Dense, vigorous, clinging, deciduous vine. Yellow to yellow-orange trumpet shaped flowers in summer. Foliage turns yellow in fall. Blooms on new wood. Full sun to part shade. Moist, well-drained soil. Drought tolerant. Flowers are attractive to hummingbirds.	July - Aug	22.95 (1)
Bittersweet Vine	Celastrus					Deer Resistant - Native to Central & Eastern NA - Drought tolerant - Attracts birds		
First Edition Autumn Revolution Bittersweet Vine	Celastrus scandens 'Bailumn'	3	7m			Plant is both male and female, which means you only need one to bear fruit (self-pollinating). Berry size is twice the size of the species. Berries ripen yellow, crack open to expose orange skin and showy, red seeds. Leaves turn yellow in fall. Berries attract birds. Good in floral arrangements. Twining, woody vine, needs sturdy support. Full sun, average to dry, well-drained soil. Drought tolerant.		29.95 (9) 32.95 (3)
Diana Bittersweet Vine	Celastrus scandens 'Diana'	3	10-15m	6-8m		Female, vigorous, deciduous vine, needs sturdy support. Insignificant yellow flowers in early summer produce round green berries, turning yellow when ripe. In fall, yellow berries split open to reveal orange-red seeds surrounded by yellow skin. Foliage turns yellow in fall. Prized for floral arrangements. Needs a male plant for fruit set. Full sun, average to dry, well-drained soil.		22.95 (2)
English Ivy	Hedera					Evergreen Groundcover - Deer Resistant - Native to Europe - Partial to full shade		
Evergreen English Ivy	Hedera helix	5						10.95 (4)
Baltic English Ivy	Hedera helix var. baltica	5	20cm	6m		Hardy evergreen ivy, makes a good groundcover for dark, shady areas. Will also climb. Part shade to shade.		10.95 (2) 12.95 (37)
Curly Locks English Ivy	Hedera helix 'Curly Locks'	5						21.95 (2) 10.95 (1)
Glacier English Ivy	Hedera helix 'Glacier'	5	15cm			Variegated, gray-green with white edges, evergreen ivy foliage plant. Groundcover or climbing plant. Great in containers, too!		10.95 (32)
Gold Child English Ivy	Hedera helix 'Gold Child'	6	5-10cm	60-90cm		Attractive, variegated, gray-green lobed leaves with green-gold edges. Evergreen.		4.95 (14) 6.95 (1) 12.95 (1) 12.95 (2)
Little Fantasy English Ivy	Hedera helix 'Little Fantasy'	5	75cm	1m		Evergreen, non-invasive, clumping plant with upright growth habit. Ht & Spr in 10yrs.		18.95 (7) 24.95 (29) 39.95 (8)
Montgomery English Ivy	Hedera helix 'Montgomery'	5				Evergreen, trifoliolate, green leaves. Creeping growth habit.		6.95 (1)
Needlepoint English Ivy	Hedera helix 'Needlepoint'	5	30cm	0.6 - 2m		Evergreen, green leaves, with delicate, thin, pointed tips. Creeping growth habit. Bronzy colour in winter.		10.95 (13)
White Mein Hertz English Ivy	Hedera helix 'White Mein Hertz'	6				Evergreen, arrowhead-shaped green leaves with blend of lime green and near-white variegation. Very slow growing.		6.95 (3)

VINES 2018 Blue - New 2018 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Red - Three or less in stock Blue - New 2018 Price/(#Stock)
Wilson's English Ivy	Hedera helix 'Wilson'	5	15-30cm	6 - 9m		Trailing hardy evergreen self-clinging vine, dark green leaves, makes good ground cover. Will climb.		10.95 (37)
Ornamental Hops	Humulus					Deer Resistant - Native to Europe, Asia, North America - Attracts pollinators		
Common Ornamental Hops	Humulus lupulus					Vigorous growth habit, needs support. Foliage dies down to ground every year, new shoots emerge in spring. Dried ripe female cones are used for preserving and flavoring beer. Full sun to partial shade, moist, well-drained soil.	Sept	11.95 (13)
Golden Ornamental Hops	Humulus lupulus 'Aureus'	4	6 - 8m	4 - 5m		Leaves emerge bright chartreuse in spring, maturing to green later on. Greenish-yellow female flowers born in small, bracted cone-like shape, mature late summer. Vigorous growth habit, needs support. Full sun to partial shade, moist, well-drained soil.	Sept	19.95 (8)
Nugget Golden Ornamental Hops	Humulus lupulus 'Nugget'	4	6 - 8m	4 - 5m		Vigorous climbing vine, needs support. Greenish-yellow cone-like flowers in July. Foliage dies down to ground every year, new shoots emerge in spring. Dried ripe female cones are used for preserving and flavoring beer. Full sun to partial shade, moist, well-drained soil.	Sept	14.95 (53)
Willamette Golden Ornamental Hops	Humulus lupulus 'Willamette'	4	6 - 7m	3m		Named for Oregon's hop-growing region of Willamette River. Fast-growing, hardy, disease-resistant. Produces masses of light, golden, fragrant cone-shaped flowers. Dried female cones are used for preserving and flavouring beer. Full sun to partial shade, moist, well-drained soil.	Sept	14.95 (28)
Climbing Hydrangea Vine	Decumaria / Hydrangea/ Schizophragma					Attracts pollinators		
Barbara Ann Climbing Hydrangea Vine	Decumaria barbara 'Barbara Ann'	6	3 - 6m	3 - 6m		Native to SE US. Self-clinging, deciduous, woody vine. Glossy, deep-green foliage, clusters of fragrant, white, fertile flowers in early to mid-summer. Full sun to dappled shade. Rich, evenly moist, well-drained soil.	June	59.95 (3)
Climbing Hydrangea Vine	Hydrangea anomala subsp. petiolaris	5	9 - 15m	1.5 - 1.8m		Native to Japan, Korea, Taiwan. Clings firmly to walls by aerial roots. Glossy green heart-shaped leaves. Fragrant, creamy-white lacecap flowers. Yellow fall colour. Exfoliating red bark is attractive in winter. Full sun to full shade. Rich, evenly moist, well-drained soil. Tolerates some drought once established.	June	39.95 (43) (5) 49.95 (6) 59.95 (3)
Miranda Variegated Climbing Hydrangea Vine	Hydrangea anomala subsp. petiolaris 'Miranda'	5	9 - 15m	1.5 - 1.8m		Same as species, except has attractive green leaves with yellow margins.	June	39.95 (13)
Roseum Japanese Hydrangea Vine	Schizophragma hydrangeoides 'Roseum'	5	3 - 4.5m	2 - 3m		Native to Japan, Korea. Self-clinging by rootlets. Deep green heart-shaped leaves. Large, showy flat-topped pink lacecap hydrangea-like flower clusters. Yellow fall colour. Partial shade to light shade. Rich, evenly moist, well-drained soil. Slow to establish.	July-Aug	34.95 (14)
Winter Jasmine	Jasminium							

VINES 2018 Blue - New 2018 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Red - Three or less in stock Blue - New 2018 Price/(#Stock)
Winter Jasmine	Jasminium nudiflorum	7				Tender vine. Native to Northern China. Arching, willow-like branches, compound dark-green leaves. Non-fragrant, showy, yellow, starchy blooms in early spring. Attractive in spring container arrangements with spring-blooming bulbs.	April	19.95 (4)
Honeysuckle Vine	Lonicera					Attracts birds, hummingbirds, pollinators - Blooms on old wood, prune right after flowering		
Early Dutch Honeysuckle	Lonicera periclymenum 'Belgica'	5	4m			Native to Europe. Foliage is dark green on top with blue-green undersides. Fragrant, yellowish-white flowers are flushed with red. Full sun to partial shade. Moist, well-drained soil.	July - Sept	19.95 (10)
Candy Swirl Honeysuckle	Lonicera 'Inov41' (Candy Swirl)	5	2.4m	2.1m		New variety from France. Dense, green foliage, unique, sweetly-scented, pink and orange flowers produces bluish fruits in fall. Requires trellised support, in container, on wall or fence, or serves as a groundcover. Full sun.	June - Aug	24.95 (22) 27.95 (6)
Dropmore Scarlet Trumpet Honeysuckle	Lonicera x brownii 'Dropmore Scarlet'	4	3-5m	2-3m		Terminal clusters of tubular, bright scarlet flowers with an orange flare in early summer, and sporadic bloom later in summer. Inedible red berries in fall. Bluish-green foliage. Twining habit, requires support. Full sun to partial shade, rich, moist, well-drained soil.	June - Aug	22.95 (4)
Goldflame Honeysuckle	Lonicera x heckrottii (Goldflame)	4	3-5m	2-3m		Cross <i>L. sempervirens</i> x <i>L. americana</i> . Twining, fast-growing vine. Fragrant, bi-color blossoms. Deep-pink buds open with yellow centers, reddish stems. Dark green leaves.	June - Aug	19.95 (1)
Harlequin Honeysuckle	Lonicera x italica 'Harlequin'	5	3m +			Species Native to Italy. Fragrant pink-and-cream flowers grown on red stems, among leaves variegated in blue and white with flushes of pink that deepen in fall.	June - Aug	19.95 (4)
Honeydew™ Japanese Honeysuckle	Lonicera japonica 'Hinlon'	5	3m+			Native to Japan. Dark green leaves with creamy-yellow margins. Tubular flowers are white with lilac markings, that age to creamy-yellow. Produces red to orange berry-like fruit, attractive to birds. Full sun to partial shade. Rich, moist, well-drained soil.	June - July	16.95 (3)
John Clayton Trumpet Honeysuckle	Lonicera sempervirens f. sulphurea 'John Clayton'	4	2-4m	1 - 1.5m		Species Native to SE US. Twining vine needs structural support. Compact growth habit. Fragrant, pale yellow flowers in early summer, with some sporadic bloom later in summer. Inedible, bright red berries are attractive to birds. Prune immediately after flowering. Full sun to partial shade, rich, moist, well-drained soil.	June - July	22.95 (5)
Magnifica Trumpet Honeysuckle	Lonicera sempervirens 'Magnifica'	4	2-3m	2-3m		Species Native to SE US. Compact habit. Terminal clusters of bright-orange, tubular flowers, with sporadic bloom later in summer. Attractive, inedible orange-red berries in Sept. Full sun to partial shade. Rich, moist, well-drained soil.	June - July	22.95 (9)

VINES 2018 Blue - New 2018 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Red - Three or less in stock Blue - New 2018 Price/(#Stock)
Mandarin Honeysuckle	Lonicera 'Mandarin'	4	6m			Cdn variety introduced by UBC. Large clusters of tubular mandarin-orange-red flowers, with orange interior. Oval, green leaves are coppery-bronze in spring. Vigorous, twining habit, needs support. Can also be used as a groundcover. Full sun to partial shade, rich, moist, well-drained soil.	June - July	19.95 (11)
Virginia Creeper / Boston Ivy	Parthenocissus					Deer Resistant - Attracts Birds		
Green Showers Boston Ivy	Parthenocissus tricuspidata 'Green Showers'	5	9 - 12m			Species Native to China, Japan. Extra large green leaves on this rapid growing self-clinging vine turn brilliant burgundy in fall. Icy-blue berries attractive to birds.		23.95 (2)
Veitchii Boston Ivy	Parthenocissus tricuspidata 'Veitchii'	5	9 - 12m			Species Native to China, Japan. Pointed leaves shaped somewhat like maple, reddish-green to green. Rapid growing stems will cling to smooth surfaces. Brilliant red fall color. Blue berries hidden by foliage, attract birds. Full sun to full shade.		16.95 (1) 23.95 (9) 29.95 (3)
Virginia Creeper	Parthenocissus quinquefolia	4	10 - 15m		Yes	Native to NS. Compound, palmate leaves. Self-clinging, rapid climber. Brilliant red fall colour. Blue berries hidden by foliage attract birds in fall. Full sun to full shade.		19.95 (7)
Engelman's Virginia Creeper	Parthenocissus quinquefolia var. engelmannii	4	10 - 15m		Yes	Native to NS. Fast growing, very hardy, self clinging, bronze-red fall colour. Blue-black berries are hidden by foliage, but attract birds.		16.95 (2) 19.95 (19)
Yellow Wall Virginia Creeper	Parthenocissus quinquefolia 'Yellow Wall'	4	10 - 15m		Yes	Cultivar of Native to NS. Hardy rapid climber. Foliage is green-yellow changing to a brilliant yellow in fall		39.95 (3)
Silverlace Vine	Polygonum					Deer Resistant		
Silverlace Vine	Polygonum aubertii (syn. Fallopia baldschuanica)	5	6 - 9m			Native to W. China, Tibet. Fast growing, vigorous, deciduous, twining vine. New leaves emerge with reddish tinge, maturing to bright green. Masses of fleecy, white flowers, late summer to fall, splendid on fences or pergolas. Yellow fall colour. Prune heavily in spring. Full sun to partial shade. Moist, well-drained soil. Tolerates drought and heavy shade.	Aug - Sept	16.95 (18) (1) 19.95 23.95 (18) 32.95 (1)
Ornamental Grape Vine	Vitis					Attracts birds		
Purple-Leaf Grape Vine	Vitis vinifera 'Purpurea'	6	4.5 - 9m			Species Native to S. & Central Europe. Snowy leaves emerge spring green with a flush of purple. As summer progresses, leaves turn more burgundy, then fiery red in fall. Tiny deep purple, edible clusters of grapes hang by late summer, are sweet inside but skin tastes bitter. But fruit is attractive to birds. Full sun. Well-drained soil. Prune while dormant.		16.95 (2)
