<b>Northern Maidenhair Fern</b>	<b>Adiantum</b>					<b>Deer Resistant</b>		
Northern Maidenhair Fern	Adiantum pedatum	4	12-24"	24-30"	<b>Yes</b>	<b>NS Native species.</b> Thin black stems with airy, lacy green leaves. Spreads slowly. Moist, humusy, acidic soil.	PSH-SH	13.95 (48) <b>18.95 (60 L)</b>
<b>Hart's Tongue Fern</b>	<b>Asplenium / syn. Phyllitis</b>					<b>Deer Resistant - Native to Europe - Site protected from NW winter winds</b>		
Hart's Tongue Fern	Asplenium scolopendrium	5	12-24"	12-18"		Evergreen, upright, undivided strap-like leaves, leathery texture. Prefers shaded, cool sites, moist, well-drained, humusy, slightly alkaline soil. Will not tolerate drought.	SH	13.95 (16) 16.95 (11)
Crested Hart's Tongue Fern	Asplenium scolopendrium 'Cristata'	5	18-24"	18-24"		Evergreen, shiny, strap-like leaves, frilled and ruffled, with forked tips. Prefers shaded, cool sites, moist, well-drained, humusy, slightly alkaline soil.	SH	<b>13.95 (18 L)</b> 16.95 (3)
<b>Upside Down Fern/East Indian Holly Fern</b>	<b>Arachnoides</b>							
Variegated East Indian Holly Fern	Arachnoides simplicior 'Variegata'	7	12-18"	18-36"		Native to China, Japan, in wooded streambanks, crevices in cliffs, wet rocks. Glossy, lime-green fronds with deeply divided subdivisions, with showy, soft-yellow stripe down the middle of each leaflet. Creeping, spreading habit. Rich, acidic, medium to wet soil. Morning sun to full shade.	PSH-SH	16.95 (13)
Upside Down Fern	Arachnoides standishii	5	18-24"			Native to Japan, Korea. Arching form. Semi-evergreen, soft, lacy fronds have an "upside down" appearance. Prefers rich, moist, partially shaded soil. Spreads very slowly by creeping rhizomes. Ideal in woodlands, this lovely textured fern looks beautiful among shade loving perennials and shrubs.	PSH-SH	<b>13.95 (3)</b>

<b>Common Name</b>	<b>Latin Name</b>	<b>Zone</b>	<b>Height (inches)</b>	<b>Spread (inches)</b>	<b>NS Native</b>	<b>Description</b>	<b>Exposure</b>	<b>Price/(# in Stock)</b>
Remote Wood Fern / Buckler Fern	Dryopteris remota	5	24-30"	18-24"		Hybrid of ( <i>D. affinis</i> x <i>D. expansa</i> ). Native to Europe. Semi-evergreen, upright form, lacy, glossy medium green fronds. Moist, well-drained, acidic soil, bright shade. Protect from wind.	PSH-SH	13.95 (9)
Wallich's Wood Fern (Loc'd in our tropical greenhouse)	Dryopteris wallichiana	6b	23-47"	23-35"		Tender fern. Native to Japan, China, Asia. Upright clump of semi-evergreen fronds, black stems. New growth colour is butter-yellow. Tidy up in spring by removing any tired looking fronds. Cover with winter mulch until this fern has been established. Rich, moist, well-drained soil.	PSH-SH	<b>13.95 (18 L)</b>
<b>Ostrich Fern /Shuttlecock Fern</b>	<b>Matteuccia</b>					<b>Deer Resistant</b>		
Ostrich Fern	Matteuccia struthiopteris	3	36 - 72"	60"	<b>Yes</b>	<b>NS Native species.</b> Vase shape, spreads by runners, moist to wet soil. Excellent planted near water. Among the first ferns to flush in spring, the source of edible fiddleheads.	PSH-SH	18.95 (24) <b>(24 L)</b>
<b>Royal Fern</b>	<b>Osmunda</b>							
Purple Royal Fern	Osmunda regalis 'Purpurascens'	5	24-48"	24-48"	<b>Yes</b>	<b>Cultivar of NS Native species.</b> A truly unique and spectacular fern! Wine-purple fountain of fronds in spring, changing to green, retaining purple colour in the stems. Nicely textured foliage, reminiscent of a locust tree. Wonderful when combined with burgundy-leaved heucheras. Prefers moist to wet, acidic, humusy soil.	PSH-SH	<b>13.95 (18 L)</b>
<b>Christmas Fern / Sword Fern</b>	<b>Polystichum</b>							
Christmas Fern	Polystichum acrostichoides	4	12-24"	12-24"	<b>Yes</b>	<b>NS Native species.</b> In spring young fiddleheads are silvery, opening to deep green evergreen fronds. Requires moist, well-drained, acidic soil.	PSH-SH	13.95 (5)

<b>FERNS 2021</b> <b>Blue - New 2021</b> <b>Common Name</b>	<b>Latin Name</b>	<b>Zone</b>	<b>Height (inches)</b>	<b>Spread (inches)</b>	<b>NS Native</b>	<b>Description</b>	<b>Exposure</b>	<b>Price/(# in Stock)</b>
Braun's Holly Fern	Polystichum braunii	4	24 - 36"	24 - 36"	<b>Yes</b>	<b>NS Native species.</b> Dense, erect, arching form. Clump-forming. Lustrous, leathery, dark-green, semi-evergreen fronds. Partial to full shade. Moist, well-drained soil.	PSH-SH	13.95 (9)
Soft Shield Fern	Polystichum setiferum	6	24-36"	24-36"		Native to SW & Central Europe. Lacy, lance-shaped, medium-green, semi-evergreen fronds. Stalks and midribs covered with attractive, cinnamon-brown scales. Prefers neutral to slightly acidic, rich, moist, well-drained soil. Mulch for added winter protection.	PSH-SH	13.95 (32)
<b>Bevis Soft Shield Fern</b>	<b>Polystichum setiferum 'Bevis'</b>	6	24-30"	48"		<b>Species Native to UK, SW &amp; Central Europe. Semi-evergreen, soft feathery textured, finely divided, light green fronds form a tight clump. Moist, well-drained, neutral to slightly acidic, rich humusy soil.</b>	<b>PSH-SH</b>	<b>13.95 (18 L)</b>
Herrenhausen Soft Shield Fern	Polystichum setiferum 'Herrenhausen'	6	24"	24"		Species Native to UK, SW & Central Europe. Semi-evergreen, soft feathery textured, light green fronds form a tight clump. Moist, well-drained, neutral to slightly acidic, rich, humusy soil.	PSH-SH	<b>13.95 (18 L)</b>
<b>Beech Fern / Marsh Fern</b>	<b>Thelypteris</b>							
Japanese Beech Fern	Thelypteris decursive-pinnata (syn. Phegopteris)	5	12-24"	12-18"		Native to Asia, growing in mountains, woods, walls, and rock crevices. Narrow, strongly upright habit. Dark green with lighter green undersides. Slowly spreads by runners. Moist, rich in organic matter, well-drained soil.	PSH-SH	13.95 (4) <b>(18 L)</b> <b>16.95 (1)</b>
