Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	Native Species	Description	
Ornamental Grasses							
Sweet Flag	Acorus					Native to Asia - Rich, consistently moist soil - Full sun to partial shade - See also Water & Bog Plants List	
Oborozuki Golden Variegated Sweet Flag	Acorus gramineus 'Oborozuki'	6	20-30cm	30-45cm		Fantastic, golden, grass-like foliage plant, with thin green stripes, forms a low clump. Tangerine scent if bruised. Flowers are insignificant. Native to bogs, shallow ponds and marshes of East Asia, this plant will grow in shallow water. Good as an accent at edge of pond or edge of woodland. Full sun to partial shade. Rich, consistently moist, acidic soil.	12.95 (31) 13.95 (12 NVK) 16.95 (1)
Variegated Sweet Flag	Acorus gramineus 'Variegatus' / Acorus calamus 'Variegatus'	6	20-30cm	30-45cm		Striped green and creamy-white foliage. Tangerine scent if bruised. Flowers are insignificant. Native to bogs, shallow ponds and marshes of East Asia, this plant will grow in shallow water. Good as an accent at edge of pond or edge of woodland. Full sun to partial shade. Rich, consistently moist, acidic soil.	12.95 (2) 13.95 (12 NVK)
Big Bluestem	Andropogon					Deer Resistant - Hardy Native to NA Prairies - Warm season, blooms late summer - Full sun, dry to average, well-drained soil - Drought tolerant once established	
Big Bluestem	Andropogon gerardii	4	1.2 - 2.2m	1m		Upright form. Flattened leaves emerge blue-green in spring, mature to green with red tinges in summer, then turning reddish-bronze with lavender tones in autumn. Flower stems arise late summer, three-pronged, seed heads resemble turkey feet, dancing above foliage. Ht with flowers up to 2.2m.	
Rain Dance Big Bluestem	Andropogon gerardii 'Rain Dance'	4	1.2 - 2m	0.6 - 1m		Upright form. Green foliage, develops wonderful maroon-red coloration in cooler weather. Deep, reddish-purple, three-pronged, seed heads resemble turkey feet, dance above foliage late summer. Seeds provide food for songbirds during fall & winter. Beautiful companion for late-blooming perennials, naturalized screening, or mass planted for erosion control.

Blue - New 2021							Blue - New 2021-Supplier
Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Price/(# in Stock)
Common Quaking Grass	Briza					Deer Resistant - Full sun, moist, well-drained soil	
Trembling Hearts Quaking Grass	Briza media	5	30-60cm	25-30cm		Creeping habit with clump of narrow, erect, green leaves. Tiny greenish flowers on tall panicles above foliage in early summer, give way to flattened, hop-like, pinkish seedheads turning to tan, which quiver and dangle in the slightest breeze, hence the name, Cut back clumps to ground late winter/early spring. Best when mass planted.	12.95 (15)
Greater Quaking Grass	Briza maxima	5	45cm			Native to Eastern & Western NA. Beautiful grass with blue-green leaves and thin stems hung with light-green to pearly-white seed clusters that resemble rattlesnake rattles, that catch the light and move with the slightest breeze. Wonderful for cut flower arrangements and winter decorations. Good for naturalized areas, mass planting, as it will self-seed. Full sun, well-drained soil.	
Feather Reed Grass	Calamagrostis					Prefers rich, moist soil - Full sun to partial shade	
Avalanche Variegated Feather Reed Grass	Calamagrostis x acutiflora 'Avalanche'	5	0.8-1.1m	60cm		Cool season grass, blooms early summer. A sport of C. 'Karl Foerster'. Clumping, green leaves are variegated, with white stripe down middle. Soft, feathery, greenish-mauve plumes early summer, maturing to wheat-colour later on.	15.95 (1)
Eldorado Variegated Feather Reed Grass	Calamagrostis x acutiflora 'Eldorado'	5	1.5m	60cm		Hybrid cross between two species native to Europe & Asia. Cool season grass, blooms early summer. A sport of 'Karl Foerster', with upright form. Bright gold midrib within narrow green leaves. Feathery, tan wheat-like seed heads which last into winter. Blooms early summer. Prefers rich, moist soils that do not dry out. Deer resistant.	

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021- Supplier Price/(# in Stock)
Hello Spring Variegated Feather Reed Grass	Calamagrostis x acutiflora 'Hello Spring'	5	1.2m	60cm		Hybrid cross between two species native to Europe & Asia. Cool season grass, blooms early summer. Upright form. Crisp, clean, variegated green & white leaves. Flowering habit is similar to C. 'Karl Foerster', with early summer blooms of feathery, purplish-green, maturing to tan seed heads late summer. Resistant to rust disease.	
2001 Perennial Plant of the Year Karl Foerster Feather Reed Grass	Calamagrostis x acutiflora 'Karl Foerster'	4	1.2-1.5m	60cm		Hybrid cross between two species native to Europe & Asia. Cool season grass, blooms early summer. Upright form. Narrow, dark green leaves, blooms purplish-green feathery plumes, which mature to stiff, tan, wheat-like seed heads, lasting into winter. Prefers rich, moist soils that do not dry out. Deer resistant.	16.95 (7) 18.95 (22)
Overdam Feather Reed Grass	Calamagrostis x acutiflora 'Overdam'	5	1.5m	30 - 60cm		Species native to Central & E. Asia. Upright form, variegated foliage opens green with creamy-white margins, fading to white with a pink flush. Foliage remains at about 60cm tall, with height extended by feathery, erect pinkish-green plumes in early summer, maturing to sand-coloured seed heads. Full sun to partial shade. Rich, moist soil that does not dry out.	18.95 (36 L)
Korean Feather Reed Grass	Calamagrostis arundinacea var. brachytricha	5	1 - 1.2m	60cm		Species native to Central & E. Asia. Warm season grass, blooms late summer. Upright form, wider (1/2") blades. Fluffy, bottlebrush blooms are purplish-red when first flowering, fading to greenish-tan and lasting into winter. Great cut flowers. Prefers rich, moist soils that do not dry out. Full sun to partial shade. Deer resistant.	18.95 (30 Aug W) 2 gal
Canada Bluejoint Reed Grass	Calamagrostis canadensis	4	0.6 - 1.8m		Yes	NS Native species. Cool season grass. Robust, sod-forming grass (spreads slowly 5-15 cm per year by underground rhizomes) suitable for wildlife shelter/forage, (including deer) in moist to wet areas. Also good for stabilization of stream banks. Full sun to full shade. Delicate flower-heads open purplish-green in early summer, fading to tan are attractive to birds.	

Ornamental Grasses & Bamboo 2021							
Blue - New 2021							Red - Three or less in stock
Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Blue - New 2021-Supplier Price/(# in Stock)
Waldenbuch Feather Reed Grass	Calamagrostis acutiflora 'Waldenbuch'	4	1 - 1.5m	60cm		Upright habit, forms a tight clump of deep-green foliage. Looser structure than 'Karl Foerster', more arching form. Sterile flower plumes emerge purplish-silvery-green in early summer, maturing to golden-later on. Prefers rich, moist soils that do not dry out. Deer resistant.	18.95 (18 NVK)
Sedge	Carex					Deer Resistant - Semi-evergreen - Partial to light shade - Rich, moist, well-drained soil - Does not tolerate drought	
Banana Boat Sedge	Carex siderosticha 'Banana Boat'	6	30 cm	40cm		Species native to mtn regions of China, Japan & Korea. Banana-yellow leaves with narrow, green margins and green striping. Needs moist soil, fertile soil partial shade. Will tolerate drier soils once established. Trim back this variety to ground level in spring.	
Bowles Golden Sedge	Carex elata 'Bowles Golden'	6	60 - 90cm	60 - 90cm		Species native to Europe, SW Asia, N. Africa. Semi-evergreen, bright, gold foliage with thin green margins. Taller than most sedges. Looks great in a part-shade garden with blue hostas, or at the edge of a pond. Needs, consistently moist to wet soil. Will grow in shallow water, as well. Partial shade.	14.95 (1)
Evergold Sedge (Variegated Japanese Sedge)(Striped weeping Sedge)	Carex oshimensis 'Evergold'	6	30cm	30cm		Native to emi-evergreen, pendulous creamy-yellow, green margins, light to full shade, moist, well-drained soil.	12.95 (2) 13.95 (18 NVK)
Frosted Curls Sedge	Carex comans 'Frosted Curls'	7	30cm	30cm		Tender perennial to -23C. Semi-evergreen, curling, pale, silvery-green to frosted-blue foliage with silvery tips. Rich, consistently moist soils, full sun to partial shade.	11.95 (8)
Gold Fountains Sedge	Carex dolichostachya 'Kaga-nishiki' (Gold Fountains)	5	15-30cm	30-45cm		Showy, fine, bright-green leaves have golden margins that are more pronounced with some sun. Leaves arch upward and outward, in a fountain-like tuft. Excellent foliage plant in woodland gardens. Prefers partial to light shade. Requires, rich, moist to wet, well-drained soil.	13.95 (18 NVK)

Ornamental Grasses & Bamboo 2021							
Blue - New 2021					NS Native Species		Red - Three or less in stock
Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)		Description	Blue - New 2021-Supplier Price/(# in Stock)
Hime-Kan-Suge (Snowline) Sedge	Carex conica 'Hime-Kan-Suge'	6	35cm	60cm		Semi-evergreen, compact growth habit, fine-textured, variegated green foliage with a white margin. Full sun to light shade. Rich, moist, well-drained soil.	12.95 (1)
Hobb Bunny Blue Creeping Sedge	Carex laxiculmis 'Hobb'	5	20 - 30cm	30cm		Native to Eastern North America. Semi-evergreen, dense, rounded clump of strappy, silvery blue-green evergreen foliage, 1/2" (1.3cm) wide. Prefers moist to wet soil, shade to partial shade. Insignificant flowers appear late spring, good nectar source for pollinators. Good edging plant for woodland edges, walkways, or edge of ponds and streams. Foliage attracts birds!	12.95 (30 NVK)
Ice Dance Variegated Japanese Sedge	Carex morrowii 'Ice Dance'	6	30cm	30 - 45cm		Semi-evergreen, variegated clump forming grass with green foliage with white margins. Prefers semi-shade, moist, well-drained soil.	16.95 (60 L)
Palm Sedge Grass	Carex muskingumensis	5	40 - 60cm	45 - 60cm		Native to Western NA. Semi-evergreen, graceful, upright clump of divided leaves, tropical in appearance, similar to papyrus. Prefers moist, well-drained soil, but tolerates dry soil as well. Makes a good groundcover under trees or at a waterside. Trim brown tips in spring.	16.95 (4)
Smooth Black Sedge (See also Water and Bog Plants 2019 List)	Carex nigra	4	15 - 20cm	30 - 90cm	Yes	NS Native species. Dark, blue-green to blue-grey foliage. Spreads by underground stolons to form tufts. Known for black flowers in and seed heads. Great for mass planting to form a groundcover, rain garden, bog, water garden/pond bank stabilization. Partial to full shade. Prefers very moist to wet soil.	12.95 (4)
Northern Sea Oats	Chasmanthium					Deer Resistant - Full sun to partial shade	
Northern Sea Oats	Chasmanthium latifolium	5	1m	45cm		Native to Central and Eastern North America. Gracefully arching stems hold flat green spikelets on slender stems, like dangling jewels. Seed heads turn purplish-bronze by late summer, then tan. Drought tolerant once established, full sun to partial shade. Great in cut flower arrangements.	18.95 (4)

Ornamental Grasses & Bamboo 2021							Red - Three or less in stock
Blue - New 2021					NS Native Species		Blue - New 2021- Supplier Price/(# in Stock)
Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)		Description	
River Mist Variegated Sea Oats	Chasmanthium latifolium 'River Mist'	5	.7 - 1m	45cm		Bamboo-like foliage, variegated bright green & white. White seed heads hang in loose clusters, maturing to copper colour, lasting into winter. Prefers moist soil, full sun to dappled shade. Drought tolerant once established. Combines well with ferns and hosta.	
Tufted Hair Grass	Deschampsia					Cool season, blooms mid-summer - Partial to light shade	
Gold Dew Tufted Hair Grass	Deschampsia cespitosa 'Goldtau'	4	30-60cm	60-76cm		Cool season grass, semi-evergreen. Clump-forming, compact variety, with very dark green, narrow blades. Outstanding golden-yellow inflorescences emerge mid-summer and last through September, changing to tan seedheads that persist into winter. Site in partial shade to light shade, in humus-rich, moist, well-drained soil.	12.95 (2) 18.95 (47)
Northern Lights Tufted Hair Grass	Deschampsia cespitosa 'Northern Lights'	5	30cm	45cm		Cool season grass, semi-evergreen. Clump-forming, compact variety, with fine, green leaves with narrow, creamy-white margins, taking on a pink-blush tone in cooler temperatures. Light-green inflorescence rises 50cm tall, forms a cloud above foliage, ages to tan, persists into winter. Partial shade to light shade, in humus-rich, moist, well-drained soil. Excellent massed in woodland or naturalized areas.	16.95 (16)
Lyme Grass	Elymus - see Leymus						
Fescue	Festuca					Native to Central & Southern Europe - Evergreen - Cool season grass, blooms in summer - Drought tolerant - Full sun, well-drained soil	
Beyond Blue Fescue	Festuca glauca 'Casca11' (Beyond Blue)	4	20-30cm			Spiky clump of intense icy blue, quill-like blades that remain breathtaking all year round. Normal to sandy soil in full sun.	16.95 (3) 16.95 (60 L)

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021-Supplier Price/(# in Stock)
Blue Whiskers Fescue	Festuca glauca 'Blue Whiskers'	4	25-30cm	60-70cm		Spiky, icy-blue clump of semi-evergreen foliage. Yellow-green flowers on 60-70cm tall scapes in early summer. Vigorous habit. Full sun, well-drained soil.	12.95 (1) 16.95 (7)
Boulder Blue Fescue	Festuca glauca 'Boulder Blue'	4	25-35cm	20-30cm		Very narrow, intense blue, spiky clump, semi-evergreen. Flowers in early summer, turning buff-coloured seed-heads. Full sun, well-drained soil.	16.95 (2)
Elijah Blue Fescue	Festuca glauca 'Elijah Blue'	4	20-25cm	45cm		Cool season grass. Semi-evergreen, icy blue foliage forms a dense, spiky clump. Cut back to 4" in spring. Maintains good summer color. Light-green flowers rise above foliage, early-summer, turning to buff-coloured seed-heads. Makes a great groundcover, plant 20-25cm apart. Full sun, well-drained soil.	
Sea Urchin Blue Fescue	Festuca glauca 'SEEIGEL' (Sea Urchin)	4	21-30cm	20-30cm		Dense tuft of very fine, blue-green leaves.	12.95 (3)
Japanese Forest Grass	Hakonechloa					Native to Japan - Partial to light shade - Rich, moist, well-drained soil	
Japanese Forest Grass	Hakonechloa macra	5	45cm	45cm		Dense mound of short and wide green blades. Graceful, arching form, leaves turn red and purple shades in the fall. Species form, tolerates more sun, drier soil, is faster growing, than most cultivars.	12.95 (49 Sid)
All Gold Japanese Forest Grass	Hakonechloa macra 'All Gold'	5	50cm	45 - 60cm		Arching, graceful, mounding foliage. Chartreuse in the shade, more golden in morning sun. Moist, well-drained soil.	12.95 (1) (125 Sid) 18.95 (108 L) (30 Sid)
2009 Perennial Plant of the Year Aureola Japanese Forest Grass	Hakonechloa macra 'Aureola'	5	30cm	1m		Leaves are golden yellow with green stripes, arching, pendulous habit. Needs partial shade to full shade, rich, moist well drained soil	12.95 (1) (30 Sid) 18.95 (108 L) (50 Sid)
Beni-Kaze Japanese Forest Grass	Hakonechloa macra 'Beni-Kaze'	5	45cm	0.6 - 1m		Brilliant yellow, cascading leaves, accented with green stripes. Develops reddish highlights as the season progresses, turning red & purple shades by fall.	12.95 (3) 13.95 (30 NVK)

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021- Supplier Price/(# in Stock)
SunFlare™ Japanese Forest Grass	Hakonechloa macra 'HABsf1007' (SunFlare™)	5	30-45cm	45-60cm		Canadian (BC) introduced sport of H. 'All Gold' with more vibrant coloration. By autumn, forms a graceful, cascading mound of intense golden-yellow with burnt-orange and burgundy-red highlights.	14.95 (10) (24 V)
Blue Oat Grass	Helictotrichon					Native to France, Italy - Evergreen - Deer Resistant - Cool season grass blooms in summer - Full sun, well-drained soil	
Blue Oat Grass	Helictotrichon sempervirens	4	60cm	60cm		Clump-forming, mounded, steel-blue, stiff, narrow leaf blades form a rounded, "porcupine-like" clump. Resembles blue fescue, but larger. Spikelets of bluish-brown flowers on taller stems rise above the clump in June, maturing to golden-wheat colour by fall. Full sun, well-drained soil. Evergreen, "comb through" to remove any brown leaf blades in spring.	18.95 (25)
Saphirsprudel Blue Oat Grass	Helictotrichon sempervirens 'Saphirsprudel'	4	60cm	60cm		Steel-blue, mounded, evergreen foliage, oat-colored flowers. Forms a dense clump.	16.95 (4)
Sweetgrass	Hierochloe odorata				Yes	NS Native species - Deer Resistant - Groundcover - Full sun to partial shade - Medium to wet soil. Salt tolerant.	
Sweetgrass	Hierochloe odorata	4	60cm	60cm	Yes	Aromatic, sweet vanilla scent, cool season grass. Very, vigorous spreading habit by underground rhizomes, 60cm per year. Yellow flowers in June. Sacred plant to First Nations. Used for weaving, medicinal. Prefers rich, wet to medium moist soil. Full sun to partial shade. Salt tolerant. Good for pond bank stabilization.	12.95 (5) 18.95 (19)
Japanese Blood Grass	Imperata					Native to Japan - Deer Resistant	
Red Baron Japanese Blood Grass	Imperata cylindrica 'Red Baron'	6	45cm	30cm		Bright red upright foliage, deep blood-red blades with rich green bases, full to partial sun, moist, well-drained soil.	18.95 (54 L)

Ornamental Grasses & Bamboo 2021							
Blue - New 2021					NS		Red - Three or less in stock
Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	Native Species	Description	Blue - New 2021-Supplier Price/(# in Stock)
Blue Rush	Juncus - See Water & Bog Plants 2021 List						
Blue Lyme Grass	Leymus (formerly Elymus)					Native to N. Europe - Deer Resistant - Groundcover	
Blue Lyme Grass	Leymus arenarius 'Glaucus'	4	0.8 - 1m			Beautiful, steel-blue flat foliage, Use carefully, as it spreads by rhizomes and can be invasive if planted in a perennial bed. Good massed as a groundcover in a sunny spot, or to stabilize banks. Drought tolerant.	
Lily Turf / Monkey Grass	Liriope					Native to China, Taiwan, Japan - Deer Resistant - Partial Shade - Rich, moist, well-drained soil	
Big Blue Lily Turf	Liriope muscari 'Big Blue'	5	30cm			Blue flower spikes (resemble grape hyacinths) above blue-green (evergreen) grass-like foliage. Flowers give way to black berries.	8.95 (53)
Monroe's White Lily Turf	Liriope muscari 'Monroe's White'	5	60cm	30-40cm		Whorled, white flower spikes. Semi-evergreen, strap-like leaves. Dark-blue to black berries, persisting into winter. Slow-spreading, clump-forming habit.	9.95 (38)
Silver Dragon Lily Turf	Liriope spicata 'Gin-ryu' (Silver Dragon)	5	50-60cm	30-45cm		Whorled lavender flowers spikes. Semi-evergreen, straplike, arching, variegated green & white leaves. Slow-spreading, clump-forming habit. Dark-blue to black berries persist into winter. Prefers moist, fertile soil, partial shade. Prune off dead foliage, brown tips in spring. Heat & drought tolerant.	12.95 (15)
Variiegated Lily Turf	Liriope muscari 'Variegata'	5	40-50cm	20-30cm		Whorled, lavender flower spikes. Semi-evergreen, variegated, glossy, green & white, strap-like leaves. Dark-blue to black berries persist into winter. Slow-spreading, clump-forming habit. Partial shade.	9.95 (13)
Wood Rush	Luzula					Full sun to partial shade, consistently moist soil	

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021- Supplier Price/(# in Stock)
Ruby Stiletto Wood Rush	Luzula 'Ruby Stiletto'	5	30-40cm	30-40cm		Cool season. Semi-evergreen, blue-green, arching, red-tipped blades. Airy clusters of white flowers above foliage early summer. Ruby-red fall foliage colour. Prefers consistently moist soil. Full sun to partial shade. Comb through foliage in spring to remove dead leaves.	12.95 (5) 16.95 (3)
Maiden Grass / Japanese Silver Grass	Miscanthus					Native to Japan, Korea, China - Clump-forming - Deer Resistant - Drought tolerant once established - Cutting back foliage in early spring helps to protect the plant crown during winter	
Adagio Silver Grass	Miscanthus sinensis 'Adagio'	5	1.2 - 1.5m			Dwarf cultivar with fine-textured, narrow, arching silvery-grey blades that turn gold in fall. Pink-tinged, feathery flower panicles in August turning to silvery-white with maturity. Full sun, average to moist, well-drained soil.	18.95 (21) 24.95 (1)
Autumn Light Maiden Grass	Miscanthus sinensis 'Autumn Light'	5	1.2 - 2.5m			A robust specimen with a narrow, outward-arching dark green leaves that turns yellowish with purple tinges in fall. Feathery flower panicles held well above the foliage, open copper-red, turning creamy-white late summer to fall. Full sun, average to moist, well-drained soil.	24.95 (1)
Berlin Maiden Grass	Miscanthus sinensis 'Berlin'	5	1.7 - 2.2m	1 - 1.5m		Long, arching blue-green leaves with silvery midrib. Feathery gold flower panicles aging to white late summer into fall. Full sun, average to moist, well-drained soil.	24.95 (3)
Blutenwunder (Blooming Wonder) Maiden Grass	Miscanthus sinensis 'Blutenwunder'	5	1.25 - 1.8m			Gracefully arching blue-green leaves turn golden-tan in fall, remaining in winter. Feathery silver flower panicles turn white. Full sun, average to moist, well-drained soil.	24.95 (1)
Cosmopolitan Variegated Japanese Silver Grass	Miscanthus sinensis var condensatus 'Cosmopolitan'	6	2.75m	1.5m		Wide, robust, variegated leaves are green with creamy white edges. Tall, coppery-red, silky flower plumes in late summer, mature to silvery white later on. Full sun, average to moist, well-drained soil.	24.95 (12 NVK)

Ornamental Grasses & Bamboo 2021							
Blue - New 2021					NS Native Species		Red - Three or less in stock
Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)		Description	Blue - New 2021- Supplier Price/(# in Stock)
Dixieland Variegated Maiden Grass	Miscanthus sinensis 'Dixieland'	6	1 - 1.2m	1m		Dwarf form of M. sinensis 'Variegatus'. Similar wide, variegated green and white leaves, but shorter and more compact growth habit. Silvery-white plumes with a reddish tinge. Full sun, average to moist, well-drained soil.	18.95 (4)
Encore Maiden Grass	Miscanthus sinensis 'Encore'	5	2 - 2.1m	1.2m		Tall, upright clump of dark-green leaves with white midribs forms a tall fountain. Blooms a little earlier than other varieties therefore may send out a second flush of flowers before frost. Flower plumes open coppery-purple, maturing to creamy-tan with age. Full sun, average to moist, well-drained soil.	18.95 (30 Aug W) 2 gal
Fire Dragon Maiden Grass	Miscanthus sinensis 'Fire Dragon'	5	2 - 2.1m	1.2m		Upright green foliage transforms into intensifying fall colours of red and orange when temperature cools. Soft silvery plumes on erect stems that won't flop, combined with scarlet foliage give a dramatic fire and smoke effect. Full sun, average to moist, well-drained soil.	24.95 (18 NVK)
Giant Silver Grass	Miscanthus 'Giganteus'	5	2.4 - 4m	1.8m		Gigantically tall clump of deep green leaves with a white midvein. Leaves are pendent giving effect of a large fountain. Bloom pink tints turning to silver. Corn-like stalks turn tan in winter. This is a clumping grass, it does not produce seeds and is not invasive. Excellent for screening. Full sun, average to moist, well-drained soil.	25.95 (29) (25 NVK)
Gold Bar Maiden Grass	Miscanthus sinensis 'Gold Bar'	6	.9 - 1.5m			Very eye-catching, clump-forming grass, strictly stiff and upright in form. Green leaves are horizontally banded in yellow, from base to tips. Showy burgundy flower plumes, mid-fall.	18.95 (25 Sid)
Gracillimus Maiden Grass	Miscanthus sinensis 'Gracillimus'	5	1.5 - 2m			Fine-textured, gracefully arching, narrow green blades with a white mid-vein. Coppery-pink plumes, mature to white. Full sun, average to moist, well-drained soil.	18.95 (31) (12 NVK) 24.95 (6 NVK)
Graziella Maiden Grass	Miscanthus sinensis 'Graziella'	5	1.5 - 1.8m			Similar in appearance to 'Gracillimus', except earlier flowering time and excellent copper-red fall colour, silvery-white plumes. Full sun, average to moist, well-drained soil.	18.95 (12) (12 NVK) 24.95 (1) (6 NVK)

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021- Supplier Price/(# in Stock)
Huron Blush Maiden Grass	Miscanthus sinensis 'Huron Blush'	5	0.9 - 1.4m	0.6 - 1m		Shorter variety, with wide, green leaves that have a very narrow, white midrib and carry tall, fluffy, plumes of blush-pink plumes, late summer, maturing to tan later on. Full sun, average to moist, well-drained soil.	18.95 (12 NVK) 24.95 (6 NVK)
Huron Sunrise Maiden Grass	Miscanthus sinensis 'Huron Sunrise'	5	1.5 - 1.8m			Canadian introduction (Ontario), most profuse blooming Miscanthus. Graceful clump of bright green leaves with silver midrib, produces large, full, burgundy plumes, late summer & fall. Full sun, average to moist, well-drained soil.	18.95 (12 NVK) (30 Aug- 2 gal W) 24.95 (1) (6 NVK)
Little Zebra Maiden Grass	Miscanthus sinensis 'Little Zebra'	5	.9 - 1.2m			Dwarf form of Zebrinus, shorter, more upright, and keeps it's colour all season. Has green foliage with prominent horizontal yellow banding. Plumes are wine-purple changing to creamy tan	18.95 (2) (30 Aug W)
Malepartus Maiden Grass	Miscanthus sinensis 'Malepartus'	5	1.5 - 2.1m	1 - 1.2m		Broad green leaves, erect habit, early blooming, large plumes open pink, stand well above the foliage, changing to golden-red in fall, white in winter. Bronze-burgundy fall foliage. Full sun, average to moist, well-drained soil.	18.95 (4) (12 NVK) 24.95 (6 NVK)
Morning Light Maiden Grass	Miscanthus sinensis 'Morning Light'	5	1.2 - 1.5m	1m		Narrow green leaves highlighted by creamy-white margins create a shimmering, silvery appearance. Rounded habit, never flops. Flowers very late, reddish-bronze plumes maturing to fluffy, cream. Full sun, average to moist, well-drained soil.	18.95 (24 Bak) (30 Aug W) 2 gal 25.95 (8) (15 Bak) (30 NVK)
Purple Flame Maiden Grass	Miscanthus sinensis 'Purpurascens'	5	1.2 - 1.8m	1m		Upright clump, rich green summer foliage turns flame-orange to bronze in fall. Attractive soft pink plumes late summer, mature to silvery-white. Full sun, average to moist, well-drained soil.	18.95 (9)
Stardust Maiden Grass	Miscanthus sinensis 'Stardust'	5	80-90cm	60-90cm		Dwarf. Spiky foliage has narrow green leaves with golden-yellow horizontal bands. Feathery, wine-purple plumes in September. Full sun, average to moist, well-drained soil.	24.95 (1)

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021- Supplier Price/(# in Stock)
Strictus Porcupine Grass	Miscanthus sinensis 'Strictus'	5	1.2-1.8m	1.2-1.8m		Similar yellow and green banding as 'Little Zebra', but different habit. Strictly stiff and upright like the quills of a porcupine, combined with it's colouring, this grass absolutely glows in the sun. Tall, pinkish-copper plume flowers, late fall, turning to silver in winter. Tan winter foliage. Full sun, average to moist, well-drained soil.	18.95 (8) (30 Aug W) 2 gal 24.95 (3)
Super Stripe Maiden Grass	Miscanthus sinensis 'Super Stripe'	5	1.2 - 2.25m	1 - 1.25m		Thick gold bands on wide blades, clump forming, strong stems, won't flop over. Bronze flower plumes, very late fall, held well above foliage, maturing to white. Full sun, average to moist, well-drained soil.	18.95 (16) 24.95 (4)
Striped Maiden Grass	Miscanthus sinensis 'Variegatus'	5	1.5 - 2.1m	1.5m		White and green longitudinal striped leaves, vase shaped, cascading, clumped form. May require staking. Flowers very late, red-tinted plumes, maturing to fluffy white seed heads. Full sun, average to moist, well-drained soil.	24.95 (6)
Zebra Grass	Miscanthus sinensis 'Zebrinus'	5	1.8 - 2.4m	1.2 - 1.8m		Widely arching, upright form, green foliage with horizontal yellow bands. May require staking. Pinkish-copper plumes late fall, maturing to fluffy white. Tan winter foliage. Full sun, average to moist, well-drained soil.	18.95 (15) (12 NVK) 24.95 (1) (6 NVK)
Purple Moor Grass	Molinia					Deer Resistant - Medium to wet soil	
Moorhexe Purple Moor Grass	Molinia caerulea 'Moorhexe'	5	0.9m	0.5m		Compact, clump-forming. Dense, tufted grass with narrow, green leaves. Taller, erect, slightly arching, deep-purple stems of flower panicles in July with "airy" appearance, mature to black-brown seed heads. Leaves turn golden-yellow in fall. Full sun, medium to wet soil.	13.95 (14)
Skyracer Tall Moor Grass	Molinia caerulea ssp. arundinacea 'Skyracer'	5	2.2m	1.2m		Tall, erect, clump-forming. Green leaves. Delicate, airy seed heads held on stiff stems in July. Purple flower spikes take on golden-yellow tones in fall. Full sun, medium to wet soil.	

Ornamental Grasses & Bamboo 2021							Red - Three or less in stock
Blue - New 2021					NS Native Species		Blue - New 2021-Supplier Price/(# in Stock)
Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	Description		
Variegated Purple Moore Grass	Molinia caerulea 'Variegata'	5	0.3 - 0.9m	0.6m		Compact, clump-forming. Dense, tufted grass with striped leaves of dark green and creamy-yellow. Taller, erect, slightly arching stems, of "see-through" quality flower panicles in July, with yellow, tan with slightly purplish hue. Yellow fall colour. Full sun, medium to wet soil. Good for rain gardens.	13.95 (5) 16.95 (14)
Black Mondo Grass	Ophiopogon					Native to Japan - Deer Resistant - Groundcover - Full sun to partial shade - Rich, moist, well-drained soil	
Black Mondo Grass	Ophiopogon planiscapus 'Nigrescens'	6	30cm			Evergreen groundcover. Leathery, narrow, strap shaped black leaves. Spreads slowly by underground stolons. White to mauve flowers, followed by shiny black fruit. Sun to partial shade, moist, rich, well-drained soil.	12.95 (10)
Switch Grass	Panicum virgatum				Yes	NS Native Species - Deer Resistant - Wind & Salt tolerant - Food & shelter for birds in winter - Cut back in early spring - Good for Rain gardens - Great cut flowers - Full sun to partial shade - Moist, well-drained soil - Drought tolerant once established	
Blood Brothers Switch Grass	Panicum virgatum 'Blood Brothers'	5	1.2-1.5m	1m		Canadian introduction, sport of P. 'Heavy Metal'. Upright, slightly vase-shaped clump of blue-green leaves. Leaf tips develop blood-red tones by mid-summer, intensifying by fall. Sprays of small reddish inflorescences change to tan seedheads by fall.	16.95 (1)
Blue Fountain Switch Grass	Panicum virgatum 'Blue Fountain'	5	2.1m	1.5-1.8m		Tall, sturdy, upright clump of wide, strappy, blue-green leaves, strongly support it's prolific, fountain-like display of greenish-tan flower panicles, late summer.	16.95 (9)
Gunsmoke Switch Grass	Panicum virgatum 'Gunsmoke'	5	1.2m	1m		New variety! Strong, robust, upright habit. Wide, steel-coloured leaves, densely packed. Loaded with airy, "smoky" tan seed heads in late summer. Full sun, drought tolerant, once established. Pretty!	18.95 (12) (60 Aug W) 2 gal

Lumen Gold Fountain Grass	Pennisetum alopecuroides 'JS Jommenik' (Lumen Gold)	6	30-60cm	30-60cm		Compact mound of showy, arching, gold leaves in early spring, maturing to glowing lemon, then finally light green. Brownish-tan, bunny-tail-like plumes hover above the foliage, late summer into fall.	18.95 (12 NVK)
Puppy Love Fountain Grass	Pennisetum alopecuroides 'Puppy Love'	5	76-91cm	76-91cm		Seedling of P. 'Ginger Love'. Graceful, arching habit, dark-green foliage with burgundy accents, dark, purplish-red flowers. Proven Winners variety!	18.95 (6)
Red Head Fountain Grass	Pennisetum alopecuroides 'Red Head'	5	1.2m	1.2m		Deep purple buds, mature to smoky purple flowers, with green foliage that turns gold in fall	18.95 (29) (15 NVK) 24.95 (10) (15 NVK)
Little Bluestem	Schizachyrium				Yes	NS Native species - Deer Resistant - Drought resistant - Cut to ground in late winter to early spring	
Little Bluestem	Schizachyrium scoparium	4	1 - 1.2m	1m	Yes	NS Native species. Upright clump of flat, linear green leaves with a tinge of blue at base. Purplish-bronze flowers in Aug, mature to silvery-white seed heads. Showy, bronze-orange fall colour. Full sun, well-drained soil. Will tolerate wide range of soil conditions. Tolerates high heat & humidity. Drought resistant.	12.95 (6)
Blue Heaven Little Bluestem	Schizachyrium scoparium 'MinnBlueA' (Blue Heaven)	4	1 - 1.3m	1m		Clump-forming. Taller, more upright habit than species. Bright, steel-blue colour with purple highlights. Late summer glossy purple flower panicles with fluffy seed heads. Fall colour mix of purple, blue, red, pink, burgundy and orange. Full sun, well-drained soil. Drought resistant.	18.95 (60 Aug W) 2 gal
Prairie Blues Little Bluestem	Schizachyrium scoparium 'Prairie Blues'	4	1m	1m		An improved selection of native Little Bluestem. More consistent gray-blue colour. Erect habit. Purplish-bronze flowers in Aug. Leaves turn to shades of pinkish-orange in fall. Silvery seed heads last well into fall. Drought resistant, will grow in hot, dry areas.	12.95 (2)
Smoke Signal Little Bluestem	Schizachyrium scoparium 'Smoke Signal'	4	1 - 1.2m	60cm		New variety! Strictly erect clump of narrow, glaucous, blue-green leaves, taking on scarlet red tones late summer, deepening to red-purple in fall, also developing tiny tan seed heads. Full sun, well-drained soil. Drought resistant.

The Blues Little Bluestem	Schizachyrium scoparium 'The Blues'	4	1 - 1.2m	45 - 60cm		Erect clump of broom-like, slender, blue-tinted leaves with pink-tinged stems. Purplish-bronze flowers in Aug, mature to attractive silvery-white seed heads that persist into winter. Foliage turns to showy, burgundy-red tones in autumn. Full sun, well-drained soil. Drought resistant. Will grow in hot, dry areas.	
Prairie Cord Grass	Spartina				Yes	NS Native Species. Deer Resistant	
Prairie Cord Grass	Spartina pectinata	4	1.2 - 2.1m	1.2 - 2.1m	Yes	NS Native species. Aggressive spreader by underground rhizomes. Good stabilizer for pond edges or stream banks with graceful dense stands of arching, glossy, dark green leaves with sharp edges. Yellow-brown blooms in July-Aug. Bright gold fall color. Prefers moist to wet soil, tolerates dry soils.	
Variegated Cord Grass / Marsh Grass	Spartina pectinata 'Aureomarginata' / 'Variegata'	5	2m			Aggressive spreader by underground rhizomes. Leaves are arching, olive-green in color, edged in golden-yellow, turning buff coloured in winter. Likes full sun, moist to wet, well-drained soil, good for naturalizing along shoreline or at seaside.	12.95 (26) 16.95 (6)
Prairie Dropseed	Sporobolus					Native from Quebec to Sask prairies - Deer Resistant - Clump-forming - Drought tolerant - Food & shelter for birds in winter	
Prairie Dropseed	Sporobolus heterolepis	4	0.6 - 1m	0.6 - 1m		Arching mound, clump-forming, warm season ornamental grass. Fine-textured, hair-like, medium-green blades, turn golden with pumpkin-orange hues in fall, fading to light-bronze in winter. Delicate, open-branched, pink and brown-tinted flower panicles rise well-above foliage late summer. Flowers are fragrant like coriander and popcorn. Tiny, rounded mature seeds drop to the ground from their hulls in fall - hence the common name. Nutritious seeds are attractive to songbirds, native grasses are larval food for Leonard's Skipper butterfly. Full sun, well-drained soil. Drought tolerant once established. Good for mass plantings	16.95 (5) 18.95 (33)

Gone With the Wind Prairie Dropseed	Sporobolus heterolepis 'Gone With the Wind'	4	0.6 - 1m	50 - 60cm		A new seed strain of native prairie dropseed from Walters. Short. green, mounded foliage is topped by wispy, airy, aromatic, tan flower panicles. Foliage takes on red overtones in fall. Flowers are fragrant like coriander and popcorn. Tiny, rounded mature seeds drop to the ground from their hulls in fall - hence the common name. Nutritious seeds are attractive to songbirds, native grasses are larval food for Leonard's Skipper butterfly. Full sun, well-drained soil. Drought tolerant once established. Best mass planted, forming a natural groundcover.	16.95 (1)
Bamboo							Deer Resistant - Excellent for screening
Green Screen Tall Clumping Bamboo	Fargesia robusta 'Pingwu' (Green Sheen)	6 (-20C)	3 - 5m			Native to China. Tall, clump-forming bamboo. Culms tall and slender. Very rich, deep green, maturing to yellowish-green. Nodes not prominent. Culm sheaths usually retained until end of summer. Multiple branching. Leaves medium-long, narrow, rich, dark-green glossy on upper surface. Sun or shade. Tolerates drought.	69.95 (18)
Green Panda Short Clumping Bamboo	Fargesia rufa 'Oprin's Selection' (Green Panda)	5 (-23C)	1 - 2m	2 - 2.4m		Native to China. A selection of F. rufa very heat tolerant and hardy. Short, clump-forming bamboo. Short, very slender culms. Bright green, becoming yellowish-green, glossy. Nodes not prominent. Upright when young, developing moderate arch later on. Reddish culm sheaths, retaining colour for a time. Multiple branches. Leaves short, very narrow. Glossy, rich green on upper surface, dull grey-green underneath. Sun or shade. Great in a container or attractive low hedge.	69.95 (19)

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021- Supplier Price/(# in Stock)
Short Clumping Bamboo	<i>Fargesia rufa</i>	5 (-23C)	1 - 2m			Native to China. Short, clump-forming bamboo. Short, very slender culms. Bright green, becoming yellowish-green, glossy. Nodes not prominent. Upright when young, developing moderate arch later on. Reddish culm sheaths, retaining colour for a time. Multiple branches. Leaves short, very narrow. Glossy, rich green on upper surface, dull grey-green underneath. Sun or shade. Great in a container or attractive low hedge.	59.95 (15 L) 69.95 (24)
Sunset Glow Short Clumping Bamboo	<i>Fargesia rufa</i> 'Sunset Glow' (syn <i>dracocephala</i> var. <i>rufa</i>)	5 (-23C)	2m	1.5m		Native to SW China. Earliest shooting, vigorous. Slightly weeping form, very dense. Culms short, very slender, bright green. Culm sheaths attractive, orange-red. Multiple branches also reddish. Leaves short, very narrow. Glossy, rich green on upper surface, dull grey-green on undersides. Sun or shade. Makes an attractive lower hedge or container specimen.	39.95 (11)
Dragon's Head Medium-Height Clumping Bamboo	<i>Fargesia dracocephala</i> 'Pinju'	5 (-23C)	3m	1.5m		Native to China. Medium height, non-spreading, clumping habit. Similar to <i>F. murielae</i> , except shorter. Soft, vase-shaped, arching form. Culms medium height, (6mm to 2cm) diameter, greyish midgreen at first, ripening to yellowish-green. Culm sheaths pale green to greenish-purple. Multiple branches. Leaves short, narrow, dark, slightly matte green on surface, dull, greyish-green on undersides. Best with afternoon shade in hot spots, partial shade or all day dappled shade.	69.95 (20)
Khairo Medium-Height Clumping Bamboo	<i>Fargesia scabrada</i> 'Khairo'	6 (-21C)	2 - 3m	1.5m		Native to high mountains of Sichuan, China. Medium height bamboo. Highly sought-after variety. Dense, clump-forming. Upright in habit when young, developing moderate arch with age. Colourful culms slender (6mm), but rigid. Young culms are blackish-purple in colour, maturing to yellowish-green. Deep orange culm sheaths. Multiple branching, leaves short and narrow. Deep green on upper surface, greyish, matte-green on lower surface. Sun to partial or dappled (light) shade..	22.95 (10) 69.95 (19)

Ornamental Grasses & Bamboo 2021 Blue - New 2021 Common Name	Latin Name	Zone	Height (cm/m)	Width (cm/m)	NS Native Species	Description	Red - Three or less in stock Blue - New 2021- Supplier Price/(# in Stock)
Golden Bamboo SOLD OUT	Phyllostachys aurea SOLD OUT	6b (-20C)	3-5m			Native to China, Japan. Very tall bamboo. Stiffly, upright form. Can be invasive if conditions are ideal. Slow to spread in cooler conditions. Culms bright green, ripening to lighter greenish-yellow, very tall, thick 3 to 5cm diameter. Prominent nodes. Culm sheaths are pale green to buff, slightly rose-tinted. Branches in pairs. Leaves medium-long, light-green on upper surface, matte mid-green on lower surface. Sun to partial shade. Needs some sun.	89.95 (17)
Yellow Groove (Crookstem) Bamboo	Phyllostachys aureosulcata	6	5-8m			Native to China. Rigidly, upright, hardy bamboo. One of the best bamboos for cold or exposed climates. May spread (very slowly) in cooler climates. Culms very tall, medium-thick. Dark green at first, with a contrasting yellow groove, maturing to yellow-green. Prominent nodes. Tendency for zigzag form at base. New shoots in early summer. Culm sheaths pale olive green with wine & cream streaks. Branches in pairs. Leaves, medium-long, bright green, glossy on upper surface, matte, gray-green underneath. Sun to partial shade.	89.95 (17)
Black Bamboo	Phyllostachys nigra	6b	4 - 6m	0.7 - 1.5m		Native to China. Tall, dense, upright, mostly clumping and tidy habit in our climate. New shoots emerge fm soil with sheaths a very striking pale pink or cinnamon colour. New culms (5cm wide) are dark, olive green, quickly becoming mottled brown-black, to almost jet black within 2 to 3 years. Since not all culms mature at same rate, result is attractive two-tone green and black culms on the same plant. Short, narrow, glossy green leaves. Full sun, good light is needed for culms to blacken. Rich, moist, well-drained soil. Spread in 10 years.	59.95 (10 L)
Dwarf White Striped Bamboo	Pleioblastus 'Albostriatus'	6b					24.95 (6)
Heavenly Bamboo (Nandina domestica) - See Broadleaf Evergreens 2021 List
